NATIONAL LABOUR FORCE
1961

LABOUR FORCE IN INCORPORATED AND UNINCORPORATED
CENTRES OF 1000 POPULATION AND OVER

• Less than .01% of the national labour force

• .01% to .019% of the national labour force

Concentrations of .02% and more of the national labour force
are indicated by proportional circles in accordance with the scale
below. Black circles represent the labour force of census metro-
politan areas and census urbanized areas*; red circles apply to
individual urban centres of 1000 population and over.

*As listed in: Census of Canada, 1961, Official Grouping of
Enumerations Areas. Part I, Census Metropolitan Areas. Part II,
Census Urbanized Areas.

LABOUR FORCE DISTRIBUTED OUTSIDE INCORPORATED AND
UNINCORPORATED CENTRES OF 1000 POPULATION AND OVER

• .01% of the national labour force

The value .01% of the national labour force corresponds to 651
persons. In 1961, the number of persons in the national labour
force was 6,510,356.

— Census Division Boundary

■ Census Metropolitan Area

NOTE: The national labour force as defined in the 1961 Census
includes all persons 15 years of age and over who were reported
as having a job of any kind, either part-time or full-time, or were
reported as looking for work during the week prior to enumeration.
The experienced labour force, part of the national labour force,
excludes persons seeking work who have never been employed.
