

**DENSITY OF ROADS  
WESTERN CANADA**

AREAS IN WHICH ROADS ARE:

- less than 1 mile apart
- 1 to 2 miles apart
- 2.1 to 4 miles apart

— Isolated road (more than 4 miles from another road in 1967) and major bridge or causeway

— F — Ferry

Note: Calculations of density excluded wagon tracks, cart tracks, trails and winter roads as designated on source maps. Also excluded are privately controlled roads such as logging roads.
