Scale 1:7 500 000 or 1 centimetre represents 75 kilometres

75	100	200	300	375	450
Kilometres					Miles

Lambert Conformal Conic Projection, Standard Parallels at 49°N and 77°N, Modified Polyconic Projection, North of Latitude 80°N

POPULATION DISTRIBUTION 1871

URBAN
Areas of the circles are proportional to the population represented.

100 000	50 000	10 000	5 000	1 000	500	Less than 300
---------	--------	--------	-------	-------	-----	---------------

RURAL
• 300 - 500 • Less than 300

□ Territorial extent of Canada, 1871.

Population as depicted on this map may not necessarily represent the population at a particular place. In some areas, point symbols or proportional circles may represent the aggregate total for the population of contiguous places. Symbols representing rural population in isolated areas have been highlighted for visibility. The geographical names used on this map respect the form in common use circa 1871. The proportional circles represent the municipalities identified in the 1871 Census.
