The daily change of the North Magnetic Pole renders
the magnetic compass unreliable in this area. The
1964 magnetic declination at the centre of this map
is approximately 140°40' West.

La variation diurne du pôle Nord magnétique rend le
compas peu sûr dans cette région. La déclinaison
magnétique pour 1964 au centre de cette carte est
approximativement 140°40' Ouest.

Rédigée en 1962, par la DIRECTION DES LEVÉS ET DE LA
CARTOGRAPHIE, MINISTÈRE DES MINES ET DES RE-
LEVÉS TECHNIQUES, d'après des photographies aériennes
prises en 1960. Levés sur le terrain en 1960 et 1961. Imprimée
en 1964.

Ces cartes sont en vente au Bureau de distribution des cartes,
ministère des Mines et des Relevés techniques, Ottawa.
