this line towards the point.
74. Contour line is drawn at the top
of quadrangle immediately on either
side of point.
75. Estimated number of a square from
this line towards the point.
76. Contour line is drawn at the top
of quadrangle immediately on either
side of point.
77. Estimated number of a square from
this line towards the point.
78. Contour line is drawn at the top
of quadrangle immediately on either
side of point.
79. Estimated number of a square from
this line towards the point.
80. Contour line is drawn at the top
of quadrangle immediately on either
side of point.
81. Estimated number of a square from
this line towards the point.
82. Contour line is drawn at the top
of quadrangle immediately on either
side of point.
83. Estimated number of a square from
this line towards the point.
84. Contour line is drawn at the top
of quadrangle immediately on either
side of point.
85. Estimated number of a square from
this line towards the point.
86. Contour line is drawn at the top
of quadrangle immediately on either
side of point.
87. Estimated number of a square from
this line towards the point.
88. Contour line is drawn at the top
of quadrangle immediately on either
side of point.
89. Estimated number of a square from
this line towards the point.
90. Contour line is drawn at the top
of quadrangle immediately on either
side of point.
91. Estimated number of a square from
this line towards the point.
92. Contour line is drawn at the top
of quadrangle immediately on either
side of point.
93. Estimated number of a square from
this line towards the point.
94. Contour line is drawn at the top
of quadrangle immediately on either
side of point.
95. Estimated number of a square from
this line towards the point.
96. Contour line is drawn at the top
of quadrangle immediately on either
side of point.
97. Estimated number of a square from
this line towards the point.
98. Contour line is drawn at the top
of quadrangle immediately on either
side of point.
99. Estimated number of a square from
this line towards the point.
