1 OVERVIEW

Toporama is a digital topographic reference product developed by Natural Resources Canada. Toporama integrates the best available data sources that cover the Canadian landmass to provide quality topographical information in raster format. This product is essentially based on the CanVec product.

2 DATE OF PRODUCTION

Current release date: May 15, 2013.

This publication of Toporama product corresponds to CanVec product tenth edition. This product is designed to be released generally every six (6) month, usually during spring, and autumn.

3 CURRENT RELEASE NOTES

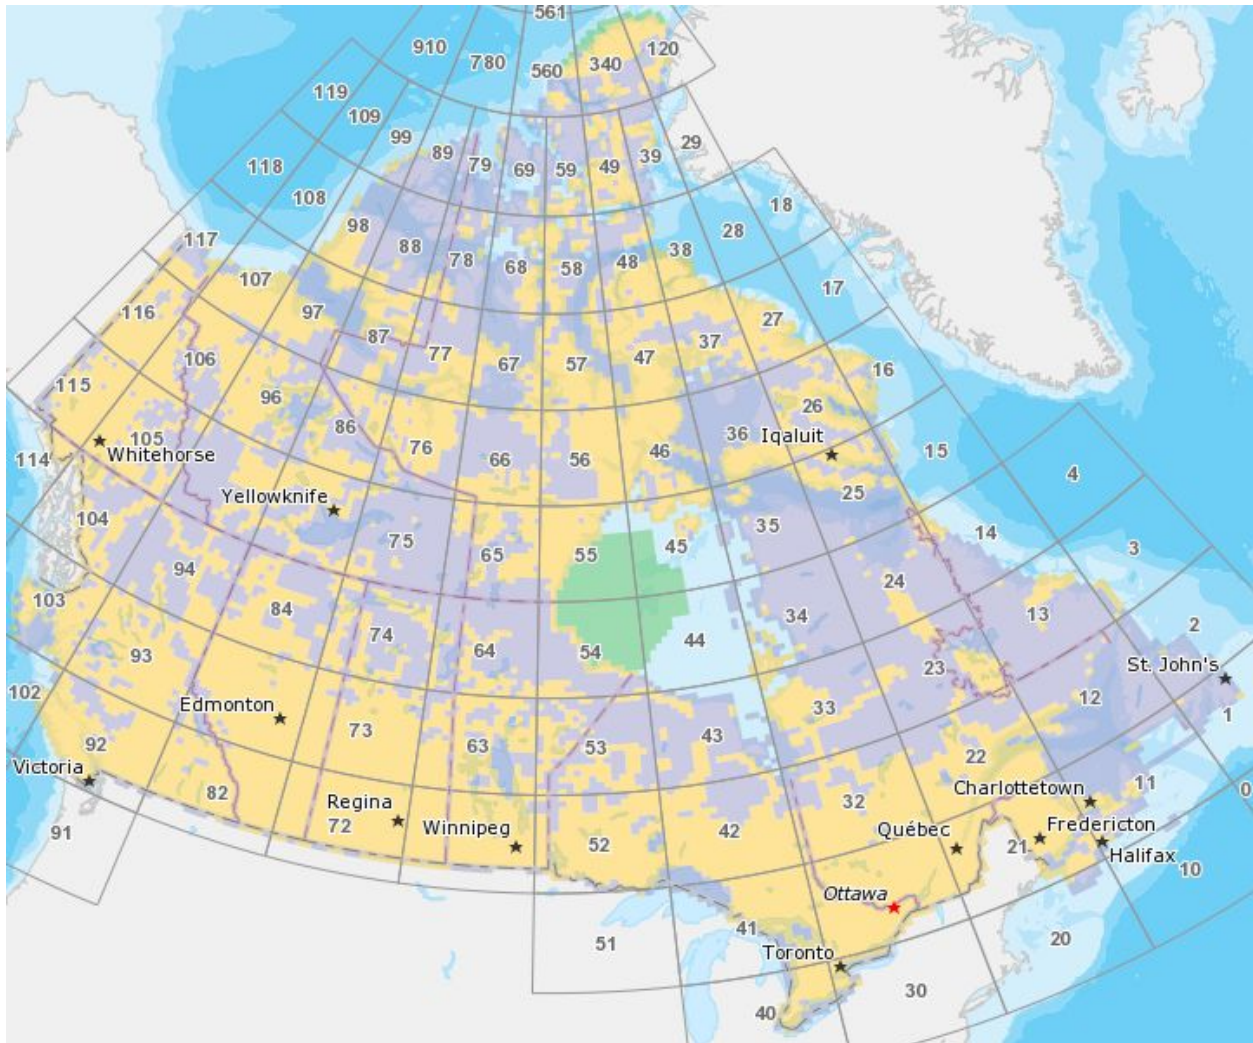

The ninth edition of this product includes following novelties, and modifications:

- Update of Wooded area entity covering the entire Canadian landmass from LandCover product distributed on GeoBase Web site, (11,369 datasets).
- Update of National Road Network (NRN). The datasets of Prince Edward Island, New Brunswick, Manitoba, Yukon, Alberta, Nova Scotia, Newfoundland & Labrador * and Ontario have been updated which consists of updating basic attributes; street & place name, and Block Face Addressing, (2,276 datasets).
* Addition of Street & Place Name, and Block Face Addressing for Newfoundland & Labrador.
- Update of Municipality and Municipality Regional Area entities, (1,991 datasets).
- Update of Aboriginal Land entities, (4,754 datasets).
- Update of different entities, mainly Hydrography, Relief and landforms, and Industrial and commercial areas themes for the Quebec province, (298 datasets).
- Addition of metric hypsographical data, (12 datasets).
- Correction of discrepancies for datasets, and metadata:
 - Positioning error (accuracy) of some entity occurrences **Transmission Line** (2 datasets, discrepancy no 02625);
 - Structuration error of some entity occurrences **Contour** (47 datasets, discrepancy no 02634);
 - Annotation font problems for **Building**, **Chimney** and **Parabolic Antenna** entities (4,231 datasets, discrepancy no 02661);
 - Omission of a part of an entity occurrence **Waterbody** (7 datasets, discrepancy no 02681).

COVERAGE OF TOPORAMA PRODUCT

A total of 15,313 datasets is part of the edition 9.0 of Toporama product where 412 are new datasets, and 12,942 datasets are modified or corrected.

Coverage of Toporama product – Edition 9.0

Legend

- New (412 datasets)
- Identical/unchanged (2,371 datasets)
- Modified/corrected (12,942 datasets)
