## OFFICE OF GEOGRAPHER

Ottawa, ..... AUG 28 1905

DEAR SIR,

I wish to obtain information respecting the derivation of the place-names of Canada—of the names of the villages, towns, cities and of the natural features, such as rivers, lakes, capes, bays, mountains, etc.—and shall be much obliged if you will give me any information that you may possess or can procure, respecting the below-mentioned name and also respecting the names of any other features in the vicinity of your residence concerning which you have knowledge.

In many localities, the older generation is passing, or has passed away, and unless steps are taken to collect this information, it will, in many instances, be too late. In most communities there are persons who take an interest in things of this nature or that have been connected with the early settlement of the locality. If there are any such in your neighbourhood, will you kindly submit this to them.

Below I have indicated the lines along which I desire information and also the commoner derivatives of place-names in Canada :—

(1.) Whether named after a village, town, or city, or natural feature in any other province or country ; if so, the name of province or country in which the original locality is situated.

(2.) Whether named after a person ; if so, the person's name, occupation, spelling of name as rendered by the person and any details of interest respecting him (or her) such as (a) Whether alive or, if dead, approximate year of death ; (b) Whether at any time a resident of the locality and, if so, whether still living there.

(3.) Whether named after a natural feature ; if so, any details respecting the origin of the name as applied to the feature and the geographical position of the latter.

(4.) Whether the town, village or city ever had any other name or names ; if so, at what dates, approximately, and the origin of these obsolete names.

Any information bearing on the above will be deemed a courtesy.

Yours truly,

JAMES WHITE,  
*Geographer.*

The original name of this place is "Dögurdarnes" (it means Breakfastpoint), and shortened into Nes (Point), the name of the P.O.

The original name is natural feature in Iceland Europe in a Bay there which is called "Breidifjörður", and also a lady did landing her ship at a Point there, and did eat her breakfast, and called it therefore Dögurdarnes. The name of the Lady was Audun djuipardga one of the first settlers in Iceland also the shape of the shore here as a little point.

The youngest name of this place is also Magnusson Point from the surname of two brothers first settled here, 30 years ago, and they both live here yet. That last name was given to the Lake Winnipeg surveyors when they were at his work last year.
