## OFFICE OF GEOGRAPHER

Ottawa, SEP 15 1905

DEAR SIR,

I wish to obtain information respecting the derivation of the place-names of Canada—of the names of the villages, towns, cities and of the natural features, such as rivers, lakes, capes, bays, mountains, etc.—and shall be much obliged if you will give me any information that you may possess or can procure, respecting the below-mentioned name and also respecting the names of any other features in the vicinity of your residence concerning which you have knowledge.

In many localities, the older generation is passing, or has passed away, and unless steps are taken to collect this information, it will, in many instances, be too late. In most communities there are persons who take an interest in things of this nature or that have been connected with the early settlement of the locality. If there are any such in your neighbourhood, will you kindly submit this to them.

Below I have indicated the lines along which I desire information and also the commoner derivatives of place-names in Canada :—

(1.) Whether named after a village, town, or city, or natural feature in any other province or country ; if so, the name of province or country in which the original locality is situated.

(2.) Whether named after a person ; if so, the person's name, occupation, spelling of name as rendered by the person and any details of interest respecting him (or her) such as (a) Whether alive or, if dead, approximate year of death ; (b) Whether at any time a resident of the locality and, if so, whether still living there.

(3.) Whether named after a natural feature ; if so, any details respecting the origin of the name as applied to the feature and the geographical position of the latter.

(4.) Whether the town, village or city ever had any other name or names ; if so, at what dates, approximately, and the origin of these obsolete names.

Any information bearing on the above will be deemed a courtesy.

Yours truly,

JAMES WHITE,  
*Geographer.*

Munroe's Bridge Sept. 29<sup>th</sup> 1903-

Dear Sir - As to the origin of the name of this Post Office Munroe's Bridge I have to say first It was called after an old Farmer that owned and settled on a farm some sixty years ago but who is now dead some twelve or fourteen years ago ~~in~~ (1893).

The Bridge spans a small river or brook which I find on old plans of Surveyors called Black River

This district was and is still known by another name namely Seals Cove which the School Section always bore since its establishment.

As to the date of giving it this name I am not sure. It is alliged that one of the first settlers killed a seal in the creek below the bridge with an old musket perhaps 75 years ago.

I am yours Respectfully

Donald M. Bean
