Dear Sir,

Were the hills in your vicinity called Cobble Hillis after a person of that name? If so, please give initials, occupation and whether alive or ~~dead~~. Or was it named after a hill or place of same name in some other province or country? If so, where? Or was it named after <sup>the</sup> predominance or presence of cobble srones?

Thanking you in advance,  
Yours truly,

James White  
Geographer

The Hills ~~were~~ <sup>are</sup> full of small stones and that is why they were called the Cobble Hills
