

31 F/5

Department of the Interior

OFFICE OF GEOGRAPHER

Ottawa, OCT 4 1905

DEAR SIR,

I wish to obtain information respecting the derivation of the place-names of Canada—of the names of the villages, towns, cities and of the natural features, such as rivers, lakes, capes, bays, mountains, etc.—and shall be much obliged if you will give me any information that you may possess or can procure, respecting the below-mentioned name and also respecting the names of any other features in the vicinity of your residence concerning which you have knowledge.

In many localities, the older generation is passing, or has passed away, and unless steps are taken to collect this information, it will, in many instances, be too late. In most communities there are persons who take an interest in things of this nature or that have been connected with the early settlement of the locality. If there are any such in your neighbourhood, will you kindly submit this to them.

Below I have indicated the lines along which I desire information and also the commoner derivatives of place-names in Canada :—

- (1.) Whether named after a village, town, or city, or natural feature in any other province or country ; if so, the name of province or country in which the original locality is situated.
- (2.) Whether named after a person ; if so, the person's name, occupation, spelling of name as rendered by the person and any details of interest respecting him (or her) such as (a) Whether alive or, if dead, approximate year of death ; (b) Whether at any time a resident of the locality and, if so, whether still living there.
- (3.) Whether named after a natural feature ; if so, any details respecting the origin of the name as applied to the feature and the geographical position of the latter.
- (4.) Whether the town, village or city ever had any other name or names ; if so, at what dates, approximately, and the origin of these obsolete names.

Any information bearing on the above will be deemed a courtesy.

Yours truly,  
JAMES WHITE,  
Geographer.

Kindly write your reply on the attached sheet.

To ensure free transmission of your reply I enclose herewith an addressed envelope which will come free of postage.

Cross Lake  
Nipissing Dist. Ont

Cross Lake is a body of water about one mile in diameter from East to West with 4 bays long and narrow all but one which is wider than the other three. One of the bays points due North; one due South; one South East and the fourth one North East; It is this four armed shape of this body of water that gave it the name — Cross Lake —

C. L. is surrounded by hardwood covered ranges of hills 100 to 200 feet high.

C. L. is the highest body of water in this district, about 600 feet higher than Madawaska Station, from which place it lies  $7\frac{1}{2}$  or 8 miles south.

C. L. is a pretty Lake. The atmosphere is a very healthy one: The place would answer for a health resort.

J. C. Schmidt

P. S. the length of the Lake including the bays is from the South east bay to North East Bay  $1\frac{1}{2}$  miles Woods.
