OFFICE OF GEOGRAPHER

Ottawa, ..... AUG 29 1905

DEAR SIR,

I wish to obtain information respecting the derivation of the place-names of Canada—of the names of the villages, towns, cities and of the natural features, such as rivers, lakes, capes, bays, mountains, etc.—and shall be much obliged if you will give me any information that you may possess or can procure, respecting the below-mentioned name and also respecting the names of any other features in the vicinity of your residence concerning which you have knowledge.

In many localities, the older generation is passing, or has passed away, and unless steps are taken to collect this information, it will, in many instances, be too late. In most communities there are persons who take an interest in things of this nature or that have been connected with the early settlement of the locality. If there are any such in your neighbourhood, will you kindly submit this to them.

Below I have indicated the lines along which I desire information and also the commoner derivatives of place-names in Canada :—

(1.) Whether named after a village, town, or city, or natural feature in any other province or country ; if so, the name of province or country in which the original locality is situated.

(2.) Whether named after a person ; if so, the person's name, occupation, spelling of name as rendered by the person and any details of interest respecting him (or her) such as (a) Whether alive or, if dead, approximate year of death ; (b) Whether at any time a resident of the locality and, if so, whether still living there.

(3.) Whether named after a natural feature ; if so, any details respecting the origin of the name as applied to the feature and the geographical position of the latter.

(4.) Whether the town, village or city ever had any other name or names ; if so, at what dates, approximately, and the origin of these obsolete names.

Any information bearing on the above will be deemed a courtesy.

Yours truly,

JAMES WHITE,  
*Geographer.*

Kindly write your reply on the attached sheet.

To ensure free transmission of your reply I enclose herewith an addressed envelope which will come free of postage.

"Red Point"  
Kings Co. P. E. I.

When first settled, it was naturally settled along the sea shore, and the few trails from points east and west traversed the beach, as there were no roads through the forest. West was a sandy Cove east was a sandy beach. here a bold headland of red sandstone jutted out into the sea hence they very naturally called it "Red Point" from this the whole settlement was called in the course of time "Red Point"

Alex. Robertson  
Postmaster

As West of Red Point is a small sheet of water known as "Black Pond". When the first settlers came here it was all surrounded with woods thick early in the evening cast a dark shadow over the water. hence the name "Black Pond" or the early ~~settlers~~ settlers called it "Loch dhu"

East of Red Point is another sheet of water known as "Basin" account of its shape as the "Basin" and a point opposite it in the shore known as "Basin Head"
