

114/5

# Department of the Interior,

OFFICE OF GEOGRAPHER,

Ottawa, MAR 2 1906

DEAR SIR,

I wish to obtain information respecting the derivation of the place-names of Canada—of the names of the villages, towns, cities and of the natural features, such as rivers, lakes, capes, bays, mountains, etc.—and shall be much obliged if you will give me any information that you may possess or can procure, respecting the below-mentioned name and also respecting the names of any other features in the vicinity of your residence concerning which you have knowledge.

In many localities, the older generation is passing, or has passed away, and unless steps are taken to collect this information, it will, in many instances, be too late. In most communities there are persons who take an interest in things of this nature or who have been connected with the early settlement of the locality. If there are any such in your neighbourhood, will you kindly submit this to them.

Below I have indicated the lines along which I desire information and also the commoner derivatives of place-names in Canada :—

(1.) Whether named after a village, town or city, or natural feature in any other province or country ; if so, the name of province or country in which the original locality is situated.

(2.) Whether named after a person ; if so, the person's name, occupation, spelling of name as rendered by the person and any details of interest respecting him (or her) such as (a) Whether alive or, if dead, approximate year of death ; (b) Whether at any time a resident of the locality and, if so, whether still living there.

(3.) Whether named after a natural feature ; if so, any details respecting the origin of the name as applied to the feature and the geographical position of the latter.

(4.) Whether the town, village or city ever had any other name or names ; if so, at what dates, approximately, and the origin of these obsolete names.

Any information bearing on the above will be deemed a courtesy.

Yours truly,

JAMES WHITE,  
*Geographer.*

Kindly write your reply on the attached sheet.

To ensure free transmission of your reply I enclose herewith an addressed envelope which will come free of postage.

*Springfield*

Queens Co. P. E. I.

Springfield P.E.I. March 22<sup>nd</sup>  
1906

The Geographer, Ottawa

Dear Sir:

In reply to yours of March 2<sup>nd</sup> 06. Respecting the derivation of the place-names of Canada -  
Springfield is composed of a block of land three miles long by two and one half miles broad. The Malpeque Road runs through the center of it, leaving the farms one and one quarter miles long. And is one of the best Farming districts on Prince Edward Island, and one of the most beautiful spots in America. It is situated almost in the center of the Island, and forms part of the Water Shed of the Island. The rain fall on one side of the Malpeque Road running North East to the Gulf, and on the other South West to the Straits. The first settlers <sup>Thos.</sup> Haslam and Benj Haslam who settled in this <sup>place</sup> 1818 A.D. called it Springfield on account of the numerous springs of water rising on the hill sides. The early settlers are all dead.

Yours Truly  
Fred. J. Haslam
