

Cypress Post is a country
office is named after the hills where they
are there are spring creeks which flow from
the Cypress hills & some spruce along
them there is where the cypress^{hills} got their
name from the northern side of the hills
is adapted for grazing as the climate is very
dry the soil is very stony so it is not
suitable for farming grass is very short
There are some small lakes some being
only a few acres in them there are some
valleys run through the Cypress hills
along the south side there is more
longer grass also running streams

Cypress is 18. miles southwest of
Maple Creek in range 29. T. 8. N. 3. 30

from P. M. Cypress
