

Department of the Interior

OFFICE OF GEOGRAPHER

Ottawa, AUG 22 1905

DEAR SIR,

I wish to obtain information respecting the derivation of the place-names of Canada—of the names of the villages, towns, cities and of the natural features, such as rivers, lakes, capes, bays, mountains, etc.—and shall be much obliged if you will give me any information that you may possess or can procure, respecting the below-mentioned name and also respecting the names of any other features in the vicinity of your residence concerning which you have knowledge.

In many localities, the older generation is passing, or has passed away, and unless steps are taken to collect this information, it will, in many instances, be too late. In most communities there are persons who take an interest in things of this nature or that have been connected with the early settlement of the locality. If there are any such in your neighbourhood, will you kindly submit this to them.

Below I have indicated the lines along which I desire information and also the commoner derivatives of place-names in Canada :—

(1.) Whether named after a village, town, or city, or natural feature in any other province or country ; if so, the name of province or country in which the original locality is situated.

(2.) Whether named after a person ; if so, the person's name, occupation, spelling of name as rendered by the person and any details of interest respecting him (or her) such as (a) Whether alive or, if dead, approximate year of death ; (b) Whether at any time a resident of the locality and, if so, whether still living there.

(3.) Whether named after a natural feature ; if so, any details respecting the origin of the name as applied to the feature and the geographical position of the latter.

(4.) Whether the town, village or city ever had any other name or names ; if so, at what dates, approximately, and the origin of these obsolete names.

Any information bearing on the above will be deemed a courtesy.

Yours truly,

JAMES WHITE,
Geographer.

Kindly write your reply on the attached sheet.

To ensure free transmission of your reply I enclose herewith an addressed envelope which will come free of postage.

"South Fork"
~~name~~ Lake

South Fork

Sept 2nd 1905

Dear Sir

Re your request for information respecting the derivation of the name, "South Fork" The reason that it is so called is because it is one of two forks or streams of the Swift Current Creek both of which have their source in the Cypress-Hills. The Largest stream is known here as the North Fork. The South Fork rises 6 miles South of the N. Fork. therefore when this place was named it was called South Fork. The North Fork rises within half a mile of the Frenchman Creek which empties into the Milk River. The South Fork rises from a spring in the Hillside of the most Easterly point of the Cypress Hills known in the district as Pollocks Butte named after the man who has a Rancho at the foot of the Butte in Sec 10 Township 8 Range 21 West of the 3rd Mer. The two forks N + S join about 30 miles from here. Hoping this information will serve your purpose I remain
Yours Truly
W. J. Symmes
