Mr. Cooper,

Thank you for your e-mail of 27 September 1998 with information on Fawkham, Ontario.

When your question on the origin of Fawkham came to us last month through the National Archives, we consulted our provincial counterparts - the Ontario Geographic Names Board - in the Ministry of Natural Resources (formerly Lands & Forests). They had no information about the original settlement and who named it.

We suggest that you might want to contact the local historical society or the local branch of the Ontario Genealogical Society for this information:

1) Simcoe County Historical Association, Box 144, Barrie, Ontario, Canada L4M 4S9
2) Simcoe County Branch, OGS, Box 892, Barrie, Ontario, Canada L4M 4Y6

Good luck in your search.

• Comments:

Thank you for your telephone request of September 9, 1998 concerning the two subjects listed above. Please note the following from our record:

- "Fawkham", Rama Township, Ontario County was at one time a post office, and point for logging operations in the area in the 1880's. Usage discontinued with establishment of post office at Washago. 1986 census = 20 people; 1971 population nil.
- 31D/NW letters from Ottawa and to Ottawa indicate that no listing changed hands in the spring of 1947, only an amendment map with a few names added to the map by Ontario.

Hope this helps!

Jeff

Chertsey and Saint-Théodore

Chertsey is a canton (township in English) northwest of Montcalm (MRC). It was established in 1856, so it is not new. Quebec does not use comtés now as they prefer to use the MRCs to reference places by (in fact, although I have seen comtés referred to in books, the only ones in the CGNDB are 2 in Region 29!). Here, the MRC for Chertsey is Matawinie.

Saint-Théodore (Village) is in the southern part of the canton of Chertsey.

Dewey Decimal (System) Classification numbering is used in libraries to file their collections by subject matter. (It is not appropriate here, as far I can see). I don't understand where N. Ohashi got this but he/she should consult a librarian to answer the question about using T2-714415 for Saint-Théodore. By the way, there are 3 entries for Saint-Théodore in the CGNDB - village, paroisse, and bureau de poste.

If N. Ohashi has any questions about the shift from canton and comté (township and county) to MRC, then I would suggest that you give him the fax number for the CTQ so they can explain.

From: Paul O'Blenes

Date: Sat, Oct 21, 1995 11:06 PM

Subject: St. Theodore (fwd)

To: O'Brien, Kathleen; Kathleen O'Brien

can you help me with this inquiry.

I originally helped this person out with identifying
where "Chertsey" compte was in Quebec. Now they're asking
me something I don't know anything about.

thanks

Mr. O'Blenes,

This concerns the same geographic name. Is Chertsey county a new jurisdiction? Our atlases do not list it. The coordinate number 46 10 00 N, 73 55 00 W, tells us that it is in Montcalm county.

I am trying to find a suitable number in the Table 2 of the Dewey Decimal Classification. Can I use the number for former Montcalm county, T2-714415, for St. Theodore? If not, please inform us the name of the county before it became Chertsey county.

Thank you,
N. Ohashi

Comments / Commentaires : Re: The Narrows (Narrows)

Further information has come to my attention since my earlier fax of this a.m. I am attaching for your information, a copy of our Names Record for The Narrows (Narrows). Although it is listed as a Channel by the Ontario Geographic Names Board, it is coded in the Canadian Geographical Names Data Base (CGNDB) as a "Narrows". The definitions are very similar.

I do hope this helps to supplement the information I sent you earlier today.

Note: If you did not receive all pages, please call at 613 (992-3892)

Dear Mrs. Dalton:

You will find enclosed documentation regarding the location of **Lake St. John**, within **Rama Township, Ontario County**, in the Province of Ontario.

Lake St. John is located on the National Topographic System (NTS) map 31 D/11. We have also included a map index providing the necessary information on how to order NTS maps.

Black River is still an official name for the river flowing near Lake St. John but at a different location than the one shown on the photocopy you have enclosed.

Lake Couchiching is the official name of the nearby lake, not Couchighing.

Northern Railway has been replaced by Canadian National Railway.

We hope this information will be useful to you.

Sincerely yours,

Dear Sir;

You helped me once in the past and I do hope you can help again. The attached page was copied from a reference book I found in the Seattle Public library. The book is titled "The maps of Canada" by N. L. Nicholson and L. M. Sebert.

This page shows two names of my ancestors in Ontario. H. McAuley and A. McAuley.

My problems are as follows:

1. I can not find the county in Ontario that contains a Lake St John.
2. I need to find the township within the County in item # 1.
3. I need the above information in order to find the Concession number. The lot number appears to be # 12 and # 14.
4. I have searched maps for the names Northern R. R., Black River, and Lake Couchighing without success. Were the names changed over the years ?

I am enclosing an International Postal coupon and self addressed envelope for your reply.

Sincerely,

Ella M. Dalton

the survey was the production of a plan showing the boundaries of the farm lots, the compass directions of the boundaries, and an outline of the more important topographical features so that the boundaries could be related to the ground. These plans were normally kept in the land administration headquarters of the colony where they were used as part of the record of land use and land ownership. The unit of land administration in French Canada was the seigneury and in the British colonies the township. The original township and seigneury plans were kept in the custody of the Surveyor-General of the province, but copies were made for a variety of purposes. In Upper Canada when the province was

LOCAL NAMES

1. BONNIE BEACH (community)

Origin – Bonnie Beach was named by William Jackson, a farmer, after the the pioneer settler, Bonnifield.

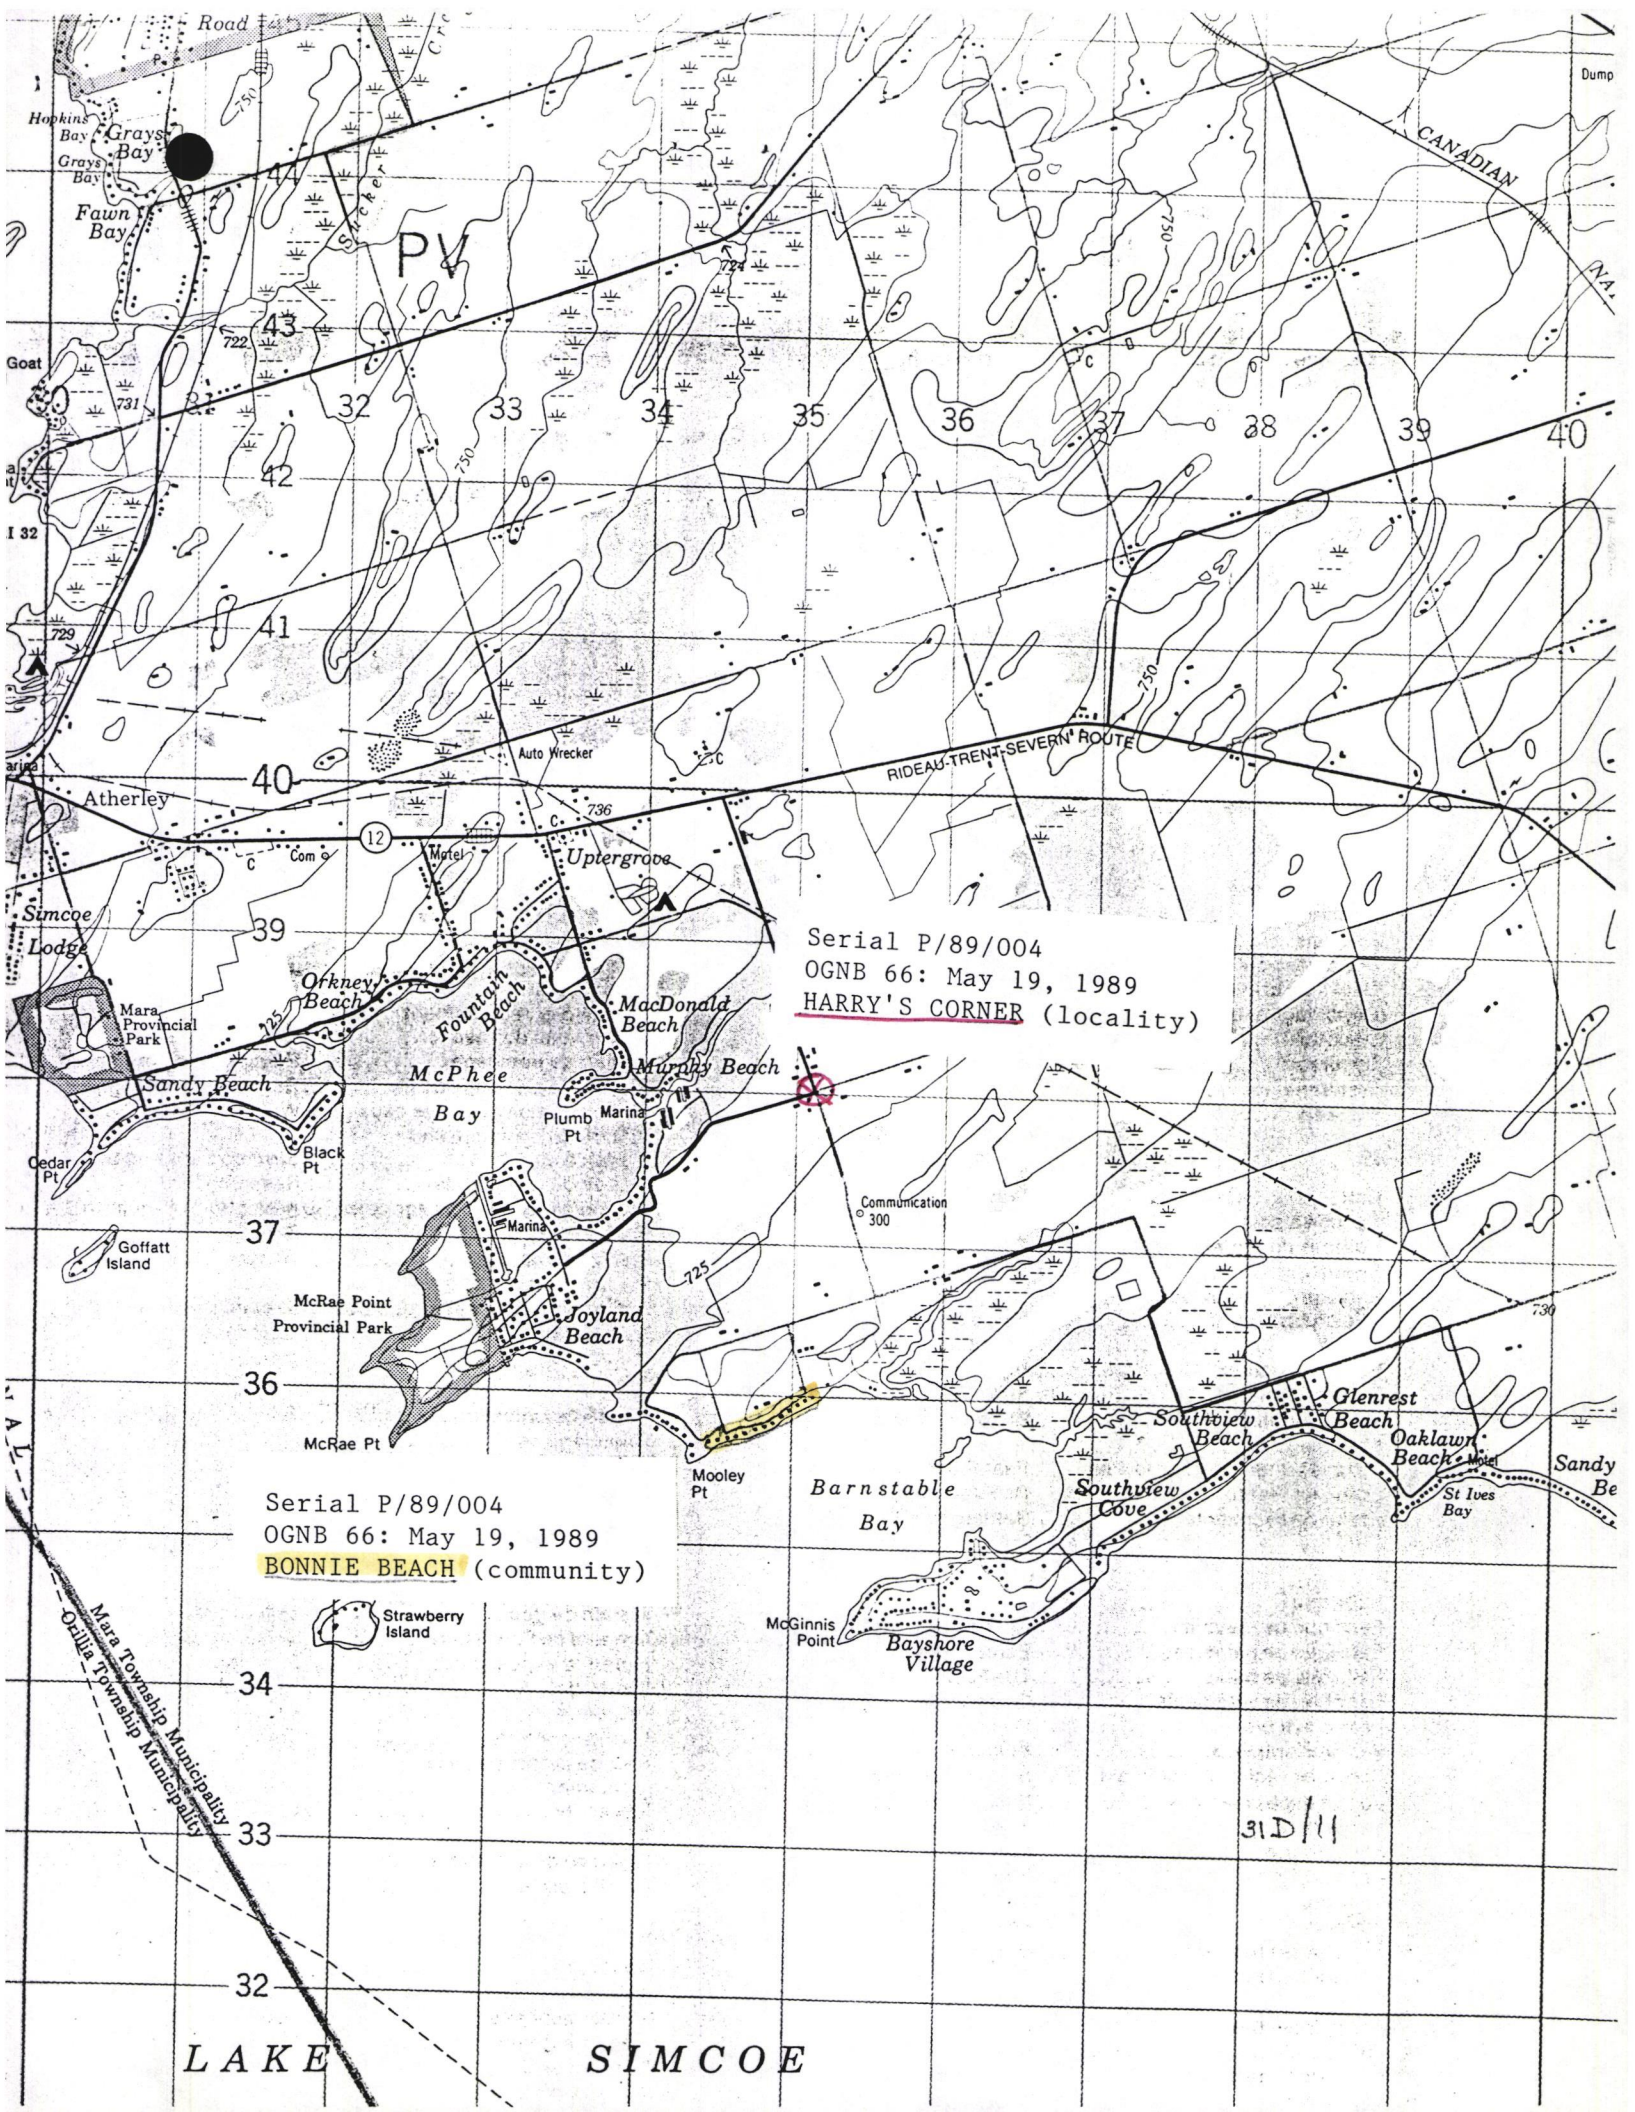

Usage
- 40 - 50 years, referring to a community having both seasonal and permanent residents
- on Registered Plan 472, dated November 27, 1951
- identified on Orillia Tourist map, 1988 (att. #2)
- used by service businesses and residents in and around Orillia, Brechin and generally in Mara Township
- All informants verified usage of the form of the name and with the exception of one, felt that the name should be identified on government maps.

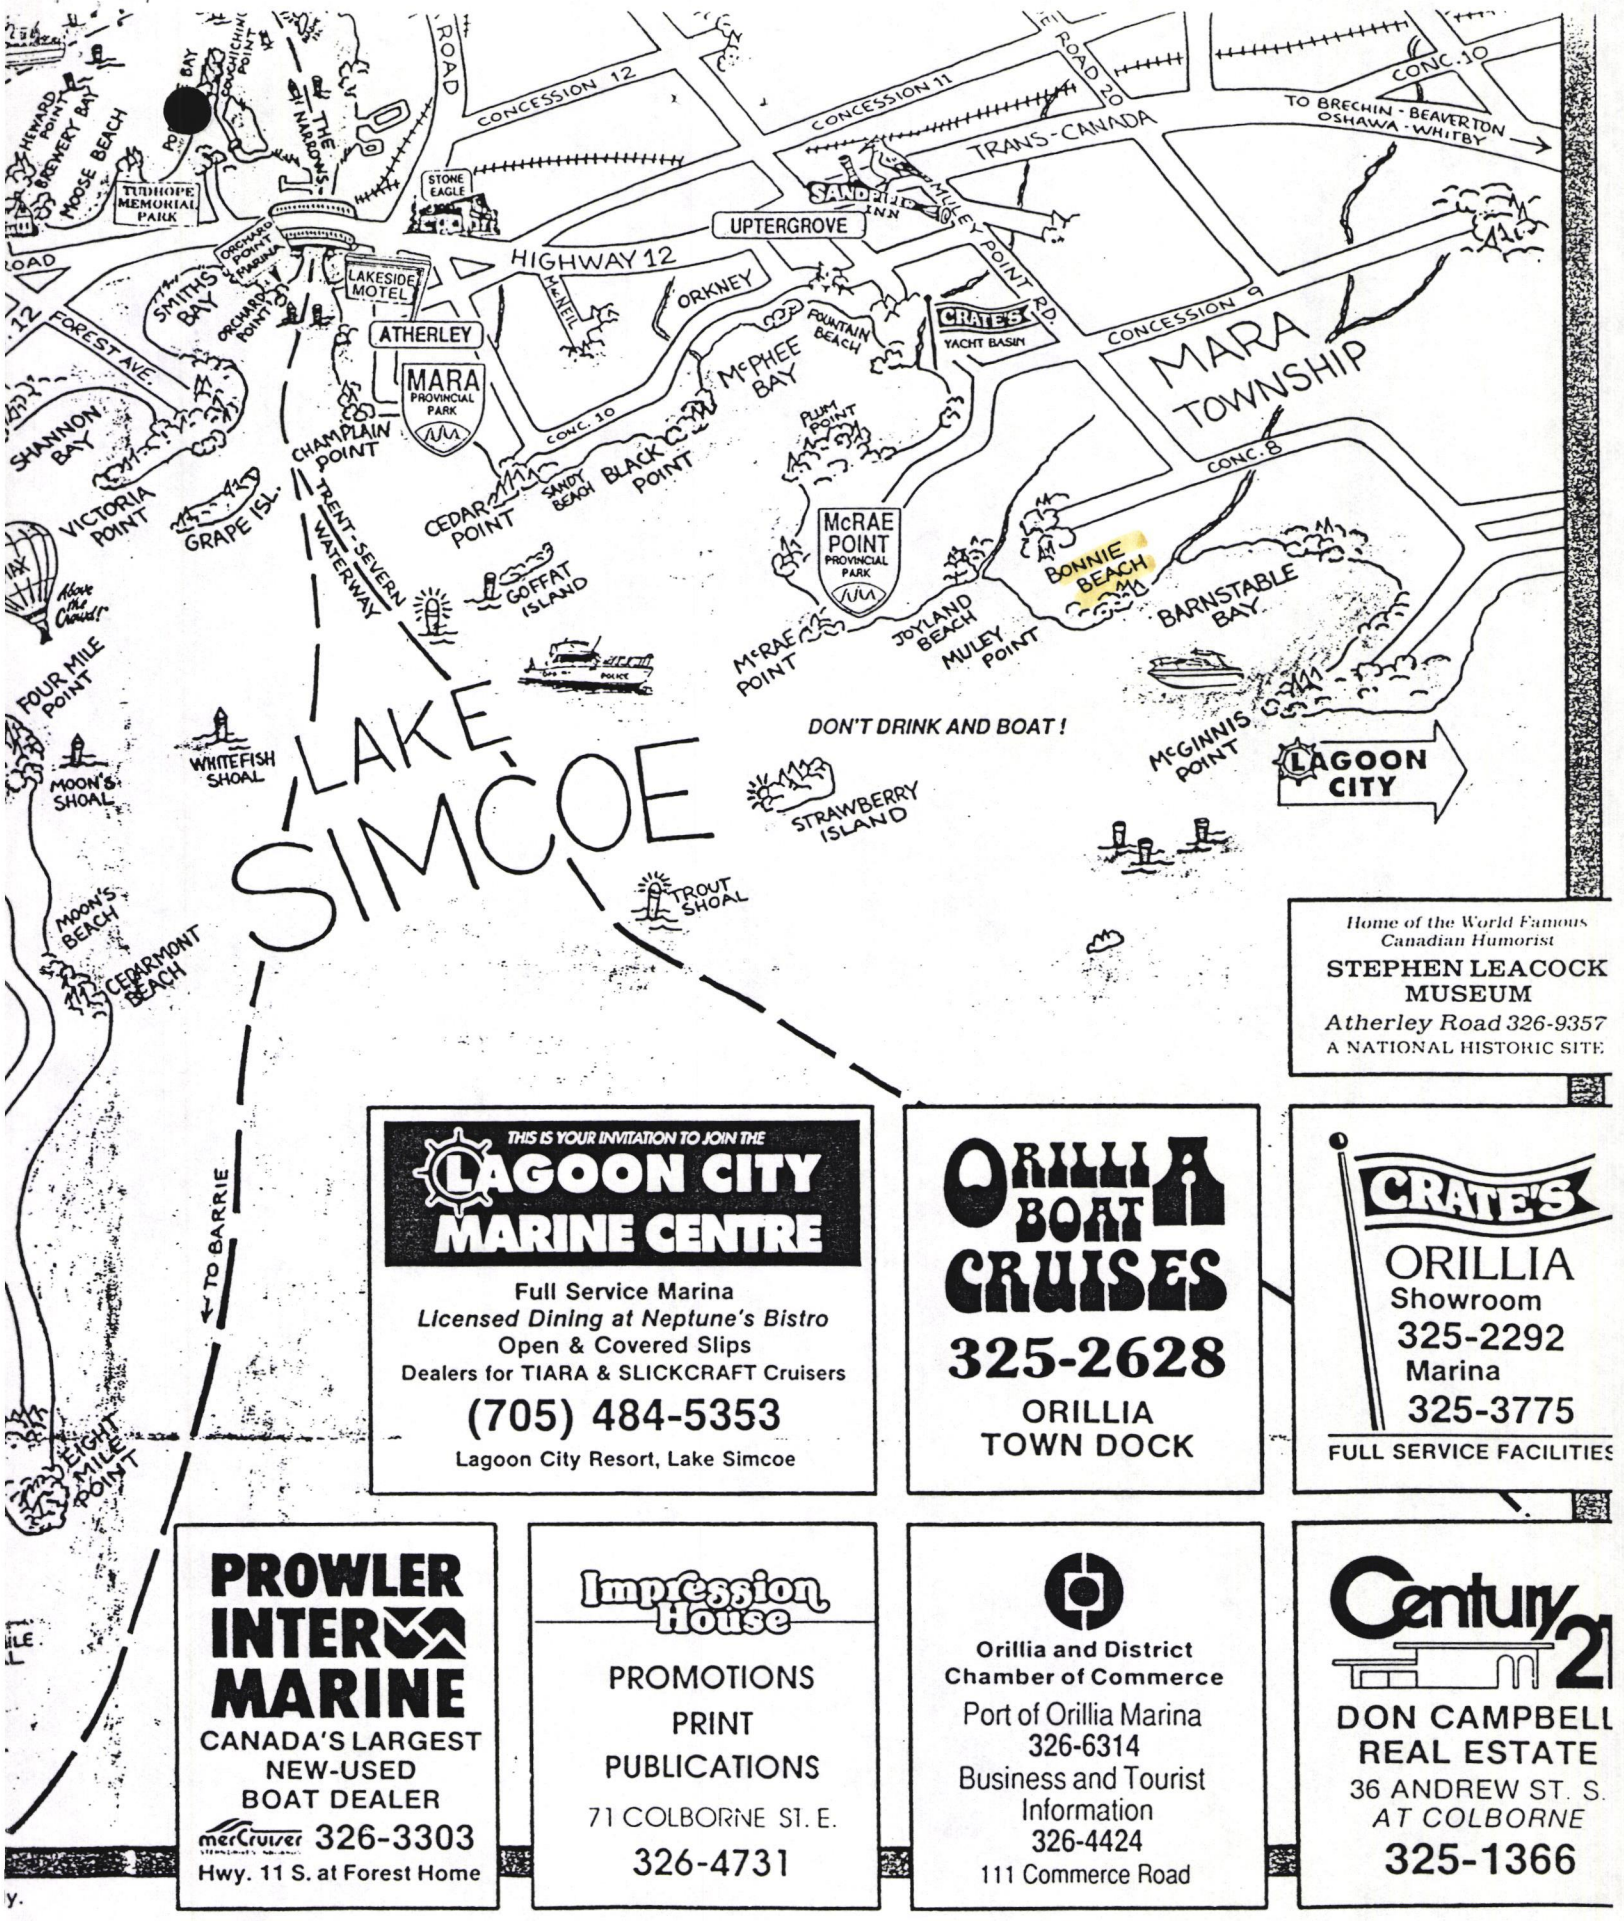

2. HARRY'S CORNER (locality)
Not: HARRYS CORNER

Origin – Harry's Corner was named after Harry Sowden (deceased) who had owned a restaurant at this intersection.

Usage
- over 30 years as a point of reference
- known by residents and visitors in Mara Township
- currently identified on the residence at this corner which was the former restaurant
- All informants with the exception of two, felt that the name should be identified on maps as it is used in giving direction, particularly to McCrae Point Provincial Park.
- The name's form, with the apostrophe was verified by all informants except two who use "HARRYS CORNER"

Eric Orr, retired businessman, resident of rural Orillia
Mr. & Mrs. T. Tsuji, cottagers, Barnstable Bay, Lake Simcoe

LOCAL NAME

1. Wainman's Creek

Origin – Wainman's Creek was named after the Wainman family who has, for three generations, farmed the land through which this creek flows (descendants still in area).

Usage
- over 60 years; for at least three generations
- known by residents throughout Mara Township
- All informants agreed that the form of this name with the apostrophe, is the locally used and recognized one.
- toponymic application of name verified by informants

SPELLING CHANGE

2. Muley Point
Not: Mooley Point*

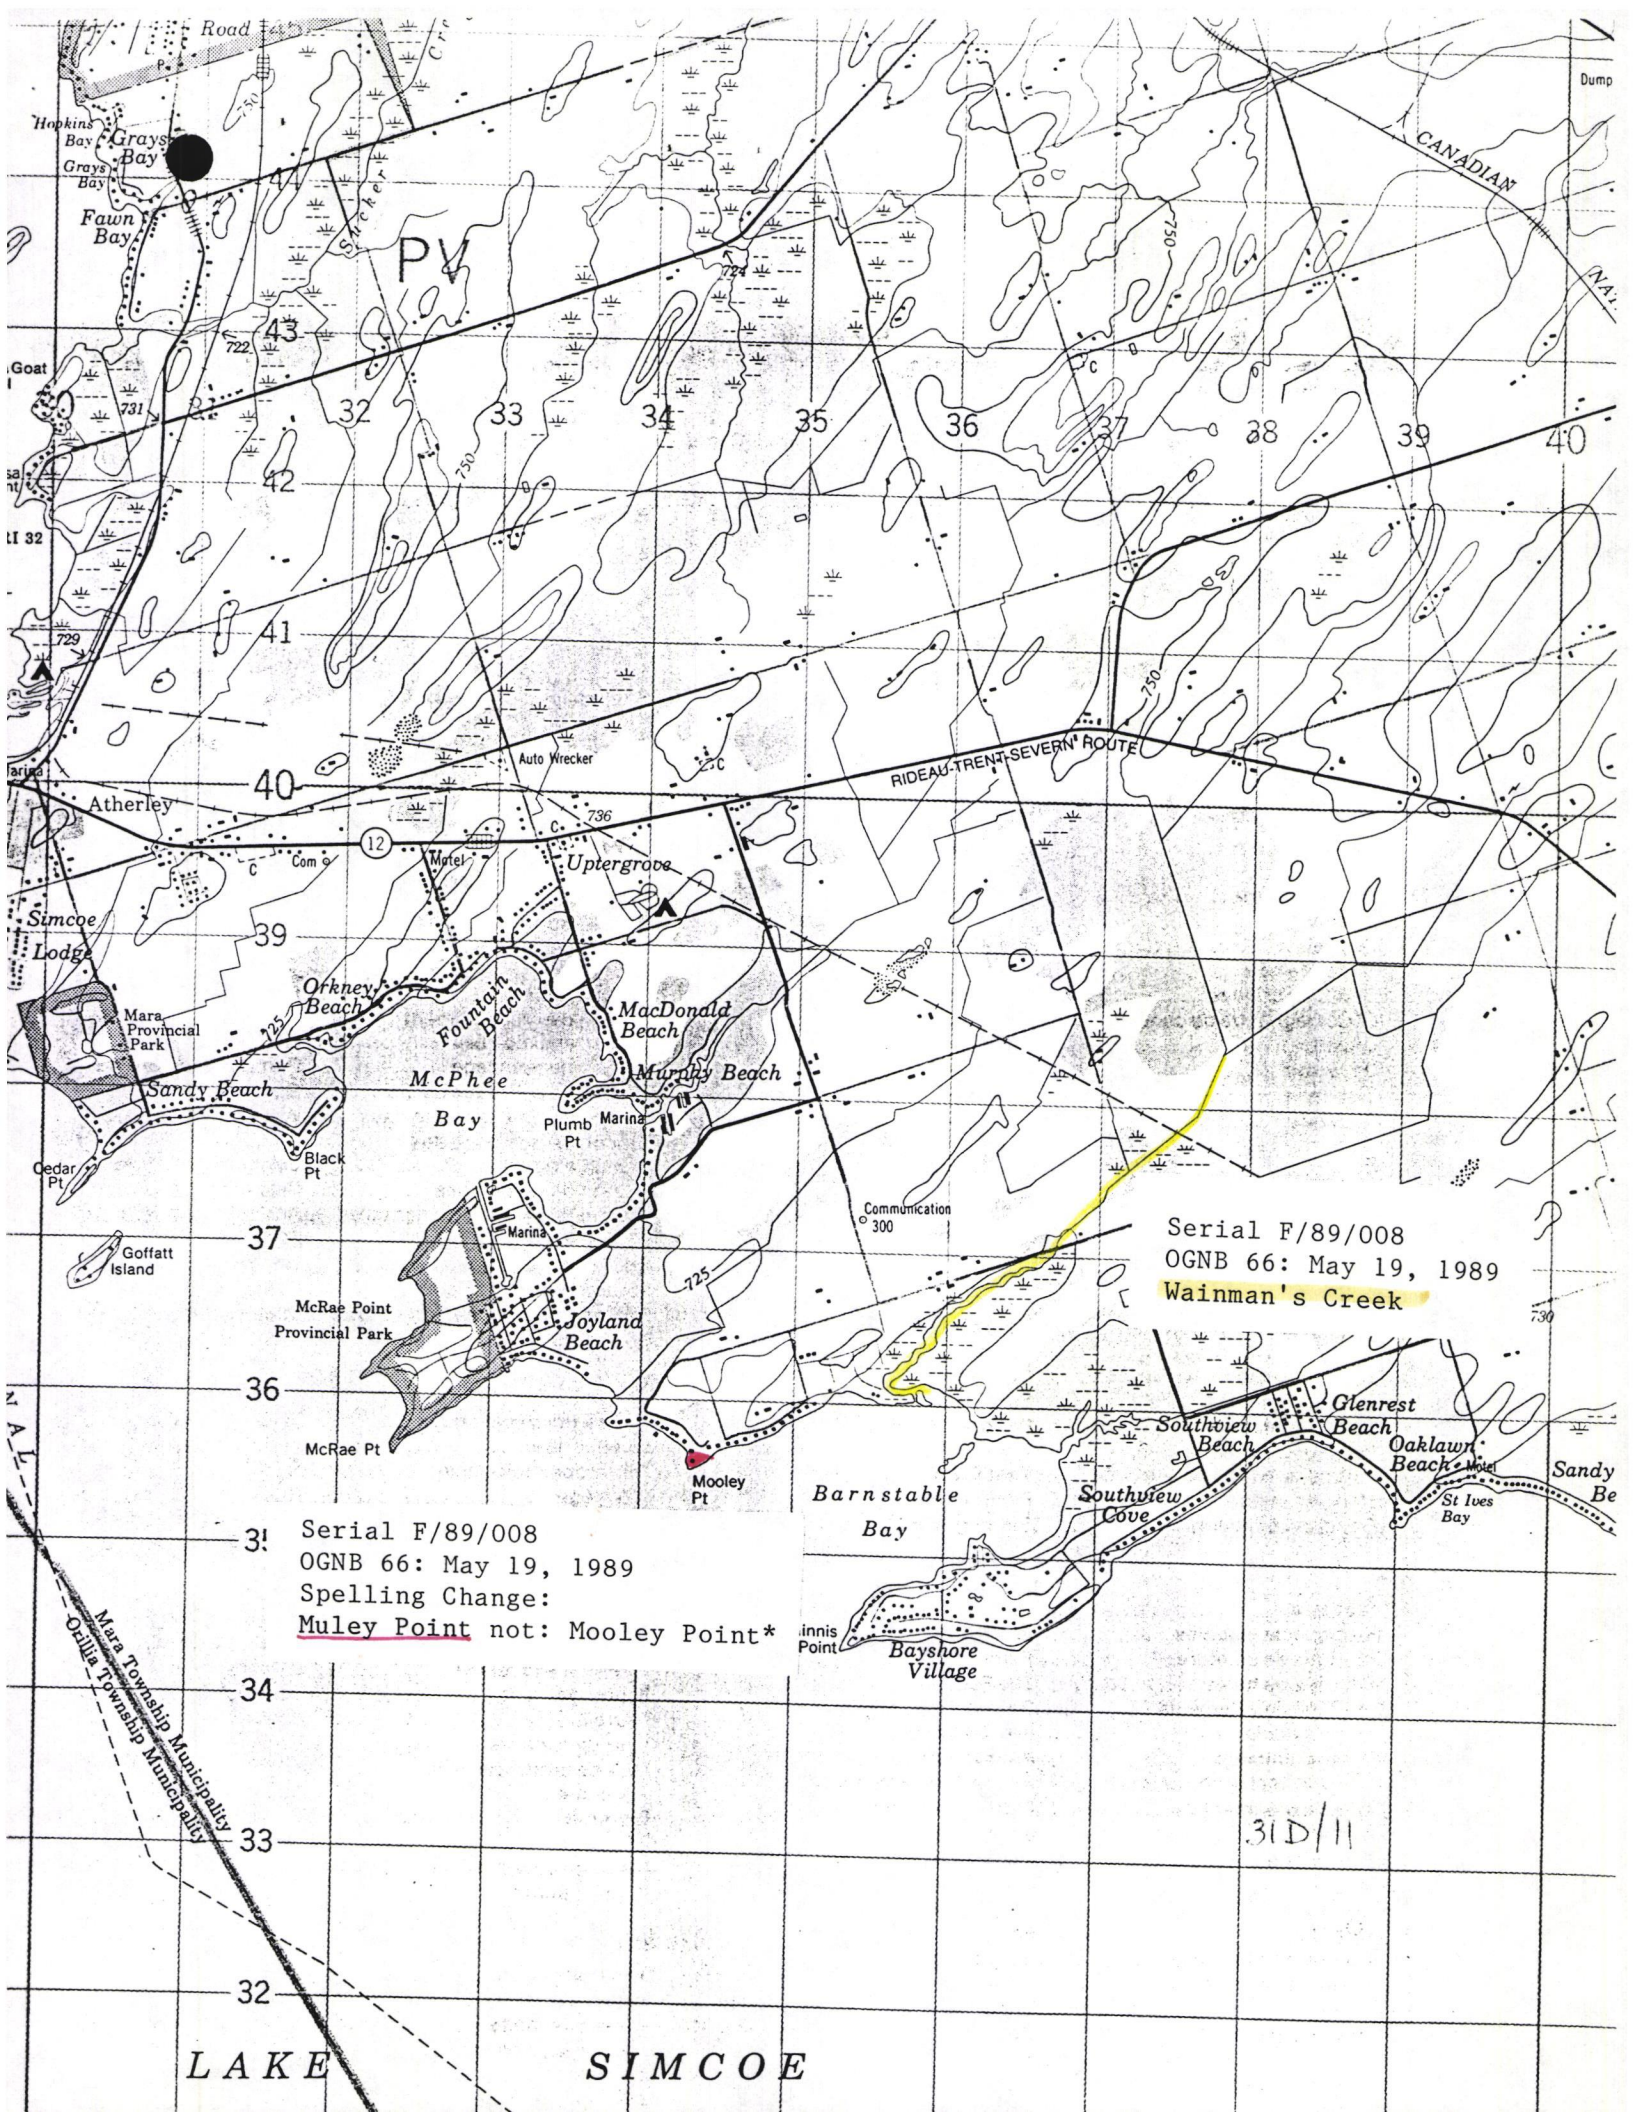

Origin – so named because in the early 1900s, a local farmer owned a muley cow
(From Webster's dictionary: "muley" means "hornless". According to a MNR Biologist, this characteristic is derived from recessive genes as female cows may or may not have horns.

2. Muley Point (cont'd)

Usage
- since the early 1900s
- on an Orillia tourist map, 1988 (att. #2)
- in a Bell Canada Telephone Book of Barrie and Orillia, 1987 (att. #3)
- form on Mara Township maps
- form on Ontario Ministry of Transportaiton sign on Highway 12, referring to "Muley Point Road"
- All informants with the exception of two, felt that the spelling of this name should be corrected to reflect local usage.

Mooley Point
- name approved by the Canadian Board on Geographical Names, November 3, 1955

Names of Geographic Features

Serial No.	Date
F/88/006	Feb. 12/88
MNR District	Map
HURONIA	31D/11

The following names of geographic features have been considered by The Ontario Geographic Names Board and pursuant to Section 3(8) of The Ontario Geographic Names Board Act, R.S.O. 1970, c.314 are **Recommended to the Minister for approval** under Section 4 of the above Act:

Name	Location	
RESUBMISSION		
NAME CHANGE (A5)		
Bird Island Not: Goat Island* (B4)	Mara Tp (geo/munc) Simcoe Co. in L. Couchiching	44°37'50" - 79°22'40" ~~UTM 17-6296-49427~~

Reason for Resubmission

A request was submitted by Mr. Peter Haskett in 1985 who represented all property owners on this island, to have the name Goat Island officially changed to Bird Island to reflect local usage and name found on the original Surveyor's Certificate, 1949.

An official name change was proposed at the 57th meeting of the OGNB, October 29, 1986 under Serial F/86/014 but deferred pending input by the Canadian Hydrographic Service.

The name change was again deferred at OGNB's 59th meeting, March 20, 1987, Serial F/87/006 pending contact with mainland permanent residents.

The present submission is therefore based on input by permanent residents.

CURRENT SUPPORT DATA

Permanent Residents:

Sgt. R.J. Brooks, OPP, Orillia
Mr. Bruce D. Bayne, municipal employee, area resident, Orillia
Mr. Doug James, Director, Ontario Sailing Centre, Orillia
Unnamed resident of Orillia
Mr. Fred Gallivan, Orillia area resident
Other long-time residents contacted by Mr. Fred Gallivan
(Four other residents responded that they were unfamiliar with the feature.)

All of the above informants verified usage of Bird Island for over 40 years. One resident stated that this name has been used since 1946 when a Mr. Bud Bowes bought the island and himself, named it "Bird Island". This name could possibly be derived from the fact that many birds are found among this and adjacent islands.

According to one resident, Rama Township residents "many years ago" used to put their goats and pigs on this island during the summer because land in the township was considered poor for grazing. This resident verified usage for Bird Island.

PREVIOUS CONTACTS

Mrs. Francis B. Mangan, Clerk Terasurer, Mara Township
- "Bird Island is on municipal records; may have originated when plan 444 was registered in 1950"

Mrs. Ellen Nielson, cottage owner on island and area resident, Orillia
- "Bird Island is used locally since her father and friends purchased island land, around 1938"

Mrs. Flora A. Wilkes, island cottage owner, resident of London, Ontario
- "Bird Island used for about 45 years; discrepancy in name maybe due to the fact that it was only a summer resort area for a good many years"

Mrs. Edna F. Roedding, island cottage owner, resident of London, Ontario
- "Bird Island - used for about 44 years - bought the island in 1942 and this name used since; taxes and all business for this property is done under this name"

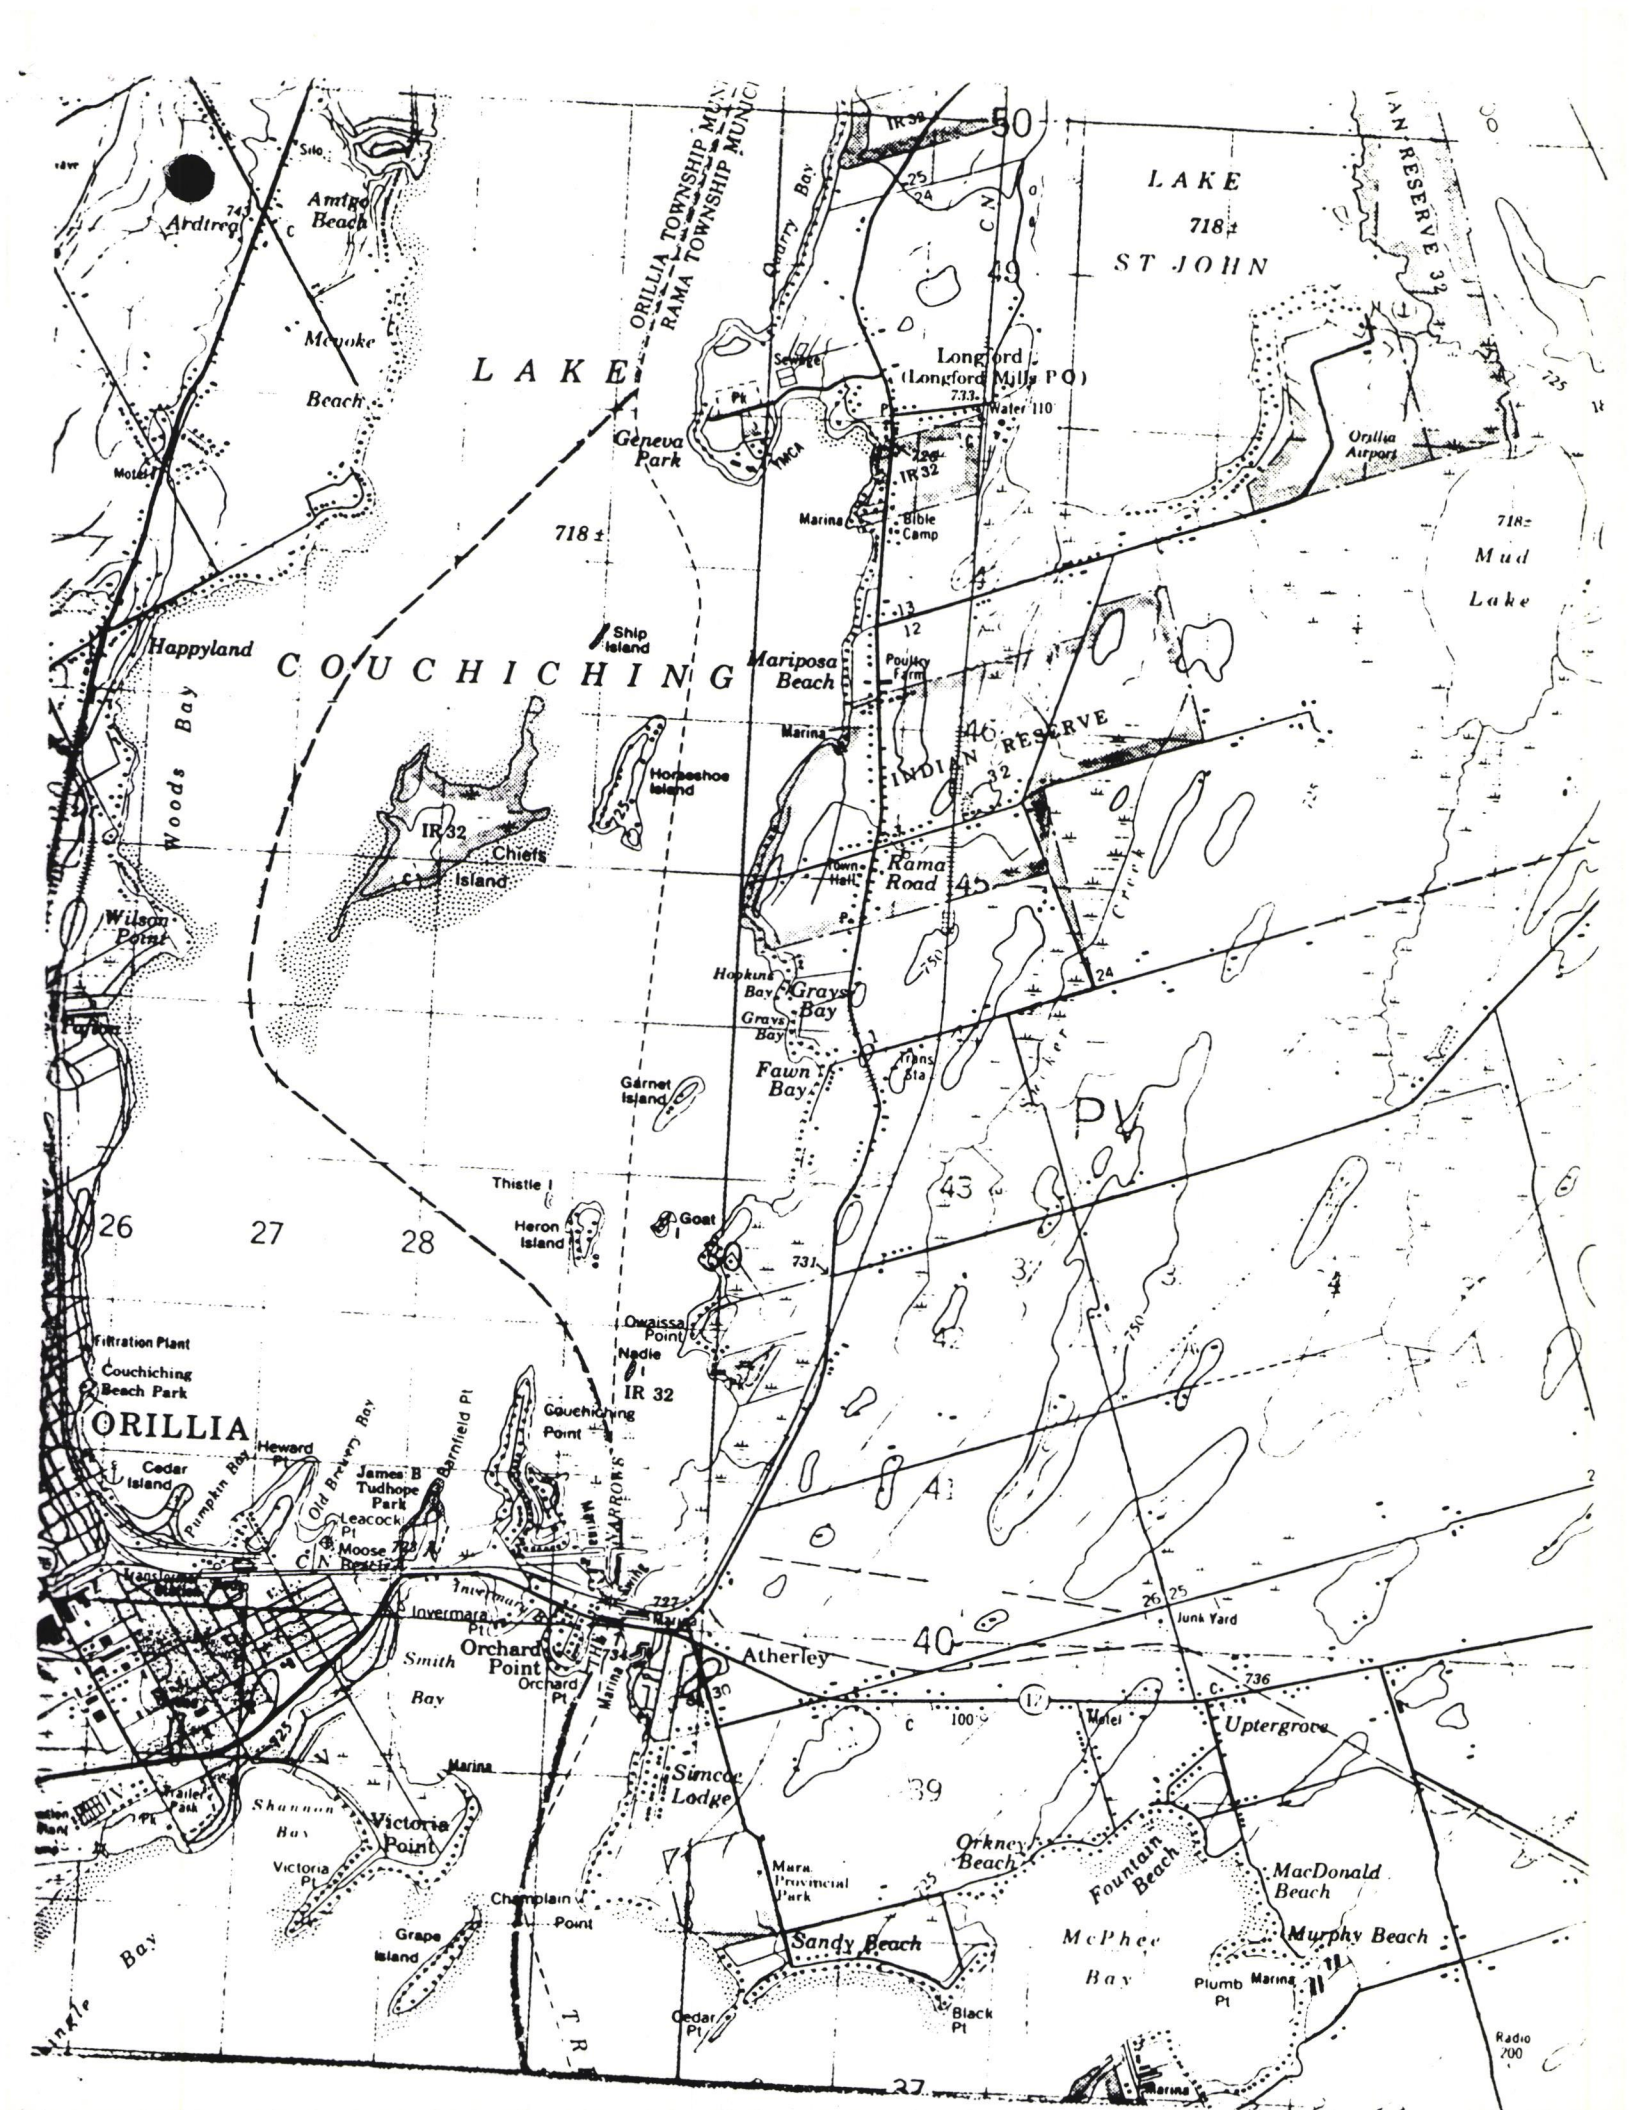

Mr. Elly Wieland, island cottage owner, resident of London, Ontario
- "purchased property in ~~1956 here~~ under the name Bird Island; all assessment and tax notices received show Bird Island"

Mr. T.C. Taylor, island cottage owner, resident of Port Credit
- "Bird Island has been used since the 1940s"

Mr. H. Shirakawa, island cottage owner, resident of Ohio, USA
- "Bird Island has been used for over 15 years"

Canadian Hydrographic Service
- Goat Island was approved in 1954 by the CBGN based on its appearance on early maps dating to 1914. This name has been on charts and maps since 1954.

Dear Ms. Kerfoot:

Re: Goat vs. Bird Island
Your letter: March 7, 1988

Thank you for your assistance and provision of information via Canadian Hydrographic Service on the name Bird Island in Lake Couchiching.

The request to change the name was initially brought to the attention of the Ontario Geographic Names Board by a group of landowners on what was then Goat Island. GNS investigations have confirmed adoption of Bird Island as the official form.

At its last meeting February 12, the OGNB recommended adoption of Bird Island in place of Goat Island (official since 1951). The recommendation has since received ministerial approval. We will forward copies of the appropriate documentation for your records in a following letter.

Please extend our thanks to CHS for their assistance, especially for provision of much invaluable field data.

Yours truly,

S.B. Panting
Surveyor General

Appendix:

MAREP REPORT: Re: Error in name of Bird Island, Lake Couchiching.

Friends of residents of Bird Island frequently complain that they would have dropped in for a visit while cruising the Trent Canal System but they could not find it on the chart.

Attached are three enclosures which show that the island has been known as Bird Island over many years.

(1) Photo copy of the applicable portion of the Trent Canal Plan of Lakes Simcoe and Couchiching as compiled in 1924 from old plans by the Department of Railways and Canals and revised April 30, 1934. The island here is designated as Bird Island.

(2) Photo copy of the Plan of Subdivision of Bird Island which is registered in Registry Office as number 444. Surveyed Sept. 1949. Signed and executed June 1950. Registered January 1951.

(3) A Realty Tax Notice from the Township of Mara to one of the residents dated May 15, 1981 and describing the property as being on Bird Island.

When Bird Island residents dealing with merchants in the surrounding area and in Orillia ask to have goods delivered to the dock for Bird Island the merchants all know where to deliver. If they asked to have goods delivered to the dock for Goat Island few if any would know where to make delivery.

Ontario Hydro and Bell Telephone use the Bird Island in all of their billings and when service is required they know where to go if the Island is called Bird Island.

Commission de toponymie

Québec, le 18 mars 1987

Monsieur Barragué Bernard

OBJET: Texte de 1603

Monsieur,

Monsieur Gilles Héon, des Archives nationales du Québec m'a transmis votre lettre dans le but de lui assurer une réponse. La Commission de toponymie, l'organisme québécois responsable de la nomenclature géographique a été créé en 1912 sous le nom de Commission de géographie du Québec. Toutefois, en 1977, la réforme de l'organisme et l'adoption de la Charte de la langue française ont entraîné une modification de son mandat et de sa dénomination pour la Commission de toponymie du Québec.

La demande que vous nous formulez comporte un problème. Vous ne me fournissez pas la référence d'où a été tirée la transcription de votre document. Au départ, j'ai cru qu'il s'agissait d'un extrait de la relation des voyages de Samuel de Champlain.

Cependant, il n'en est rien. Aussi j'apprécierais beaucoup que vous me fassiez parvenir la référence d'où a été tirée cet extrait de texte.

Le toponyme "Orillia" cité dans l'extrait du texte m'a beaucoup intéressé, car il existe dans la province voisine de l'Ontario près du lac Simcoe, à l'est du lac Huron et au sud-est de la baie Georgian, un lieu nommé Orilla. À cet égard, j'ai consulté monsieur René Leduc du Comité permanent canadien des noms géographiques qui m'a transmis toute une série de photocopie d'articles sur le toponyme Orilla que j'annexe à ma lettre.

À la lecture de ces documents, il se dégage un absence de concensus au sujet de son origine et de sa signification.

/... 2

220, Grande Allée Est
Québec (Québec)
G1R 2J1

Le canton d'Orilla a été proclamé en 1822. Certains auteurs croient qu'il s'agit d'un mot espagnol qui aurait été donné par le lieutenant-gouverneur Sir Peregrine Maitland qui a été en poste en Espagne (*Encyclopedia Canadiana*, Ottawa, The Canadian Company Limited, p. 62). Quant à Floreen Ellen Carter, elle croit qu'Orelia (sic) est le premier nom amérindien de l'endroit.

G.H. Armstrong, dans *The Origin and Meaning of Place names in Canada*, Toronto, Macmillan of Canada, p. 214, ajoute qu'un magnifique monument rappelle le souvenir de Samuel de Champlain. Toutefois, l'auteur s'empresse de mentionner que l'origine du nom est très discutée. Il évoque aussi l'origine possible du passage en Espagne de Sir Peregrine Maitland.

Toutefois, votre lettre demeure fort intriguante et me laisse songeur. Le toponyme Aureilhan aurait-il pu inspirer les habitants de l'endroit lors de la dénomination de leur nouveau patelin?

Ainsi, si vous aviez plus de précision concernant la provenance de votre extrait de manuscrit, je serais très heureux que vous me le fassiez savoir. Entre temps, je vais transmettre votre lettre à monsieur René Leduc à titre documentaire.

Je vous prie d'agréer, Monsieur, l'expression de mes sentiments les meilleurs.

Dear Mr. Haskett:

Re: Goat/Bird Island

A copy of your submission to have the name **Goat Island** re-instated to **Bird Island** has been sent to the Ontario representative on the Canadian Permanent Committee on Geographical Names for consideration.

While checking our files, we found that **Bird Island** was the island's name when it was owned by the Department of Indian Affairs. It was officially adopted as **Bird Island** 6 July 1932 on 31 D/NW but was changed to **Goat Island** 1 April 1954 on 31 D/11. However, **Goat Island** was known as one of the island's names prior to the 1932 approval of **Bird Island**; it appeared on both the Trent Canal Map and Geological Survey's map 1199.

At the moment, no further information from you is necessary. Ontario will get in touch with you if they need more information. It will take some time for Ontario to investigate your submission locally and then come to a decision. However, we have requested that that decision is sent to you directly from them.

Sincerely yours,

K. OBrien

Dear Mr. Panting:

Re: **Goat Island and Bird Island**

Enclosed is a self-explanatory letter from Mr. Peter D. Haskett requesting that **Goat Island** be changed to **Bird Island.**

Bird Island (NOT **Goat Island**) was adopted 6 July 1932 on 31 D/NW. It was changed to **Goat Island** 1 April 1954 on 31 D/11. If the change is approved, it will be a reinstatement.

Copies of information from 1932 in our files concerning these names but supporting **Bird Island** are enclosed for your information.

May we please have your comments and recommendations on these names?

Please tell Mr. Haskett your recommendations as well.

Sincerely yours,

K. O'Brien

GEOGRAPHIC
JAN 19 1932
BOARD

COLONEL A.E. DUBUC,
Chief Engineer,
Department of Railways & Canals,
OTTAWA.

Dear Colonel Dubuc,-

We are compiling Ophilia sheet No.31 D/N.W. of our Topographic series and have obtained considerable information from plans of Trent canal supplied by your Department, particularly relative to names.

Your plan of Lakes Simcoe and Couchiching shows names of three islands, in the latter named lake, differing from that of the Department of Indian Affairs. They have disposed of these islands and the patents and all official records of that Department show the names which are on their plans. They are as follows:-

1.	Channel I.	= Trent Canal map
	Hadie I.	= Indian Reserve plan
2.	Horseshoe I.	= Trent Canal map
	Horse I.	= I.R. plan
3.	Goat I.	= Trent Canal map
	Bird I.	= I.R. plan

For reasons stated above, the Indian Affairs cannot change these names in their records. Their plans were issued in 1915 but the names have been established even considerably earlier than that date.

Your map, issued in 1924, appears to have a fixed light on your Channel I. Would it be possible for your Department to have this light referred to as on "Hadie I." and accept all three names as on the Indian Reserve plan and in their records, which seem to have preference due to having been established at an earlier date?

I should be pleased to hear from you at an early date as our map is well under way and we wish to place this information before the Geographic Board for decision and approval.

Yours truly,

F.H. Peters,
Surveyor General.

SCHEDULE OF CONTENTIOUS NAMES FOR ORILLIA SHEET NO.31-D/NW.

Item No.	Name.	Feature.	Location.	Remarks.
18	Go Home	Lakes	8-168	Apparently acceptable to Mr. Rorke. Trent Canal map. Chief Geographer's map "Toronto Sheet". The following are the Surveyor-General's remarks: "There is a 'Go-Home Lake' on Muskoka Sheet, Grid 7-170 on this sheet". Name suggested by Surveyor-General in place of "Go Home Lakes", his memorandum of January 14, after the name of the township." The Surveyor-General further states "...as it (Go Home Lakes) is really one lake with a large island in it, or delete the name to avoid duplication of name of large lake partly on Muskoka Sheet and extending into grid 7-170 of this area." Mr. Rorke offered no comment on the duplication.

	Bird	"	"	

Note: Regarding the island names Nadie, Horse and Bird the Surveyor-General has suggested these be retained as they are the names under which they were disposed of by the Dept. of Indian Affairs.

The Department of Railways and Canals "is quite willing to use the names as recorded by the Dept. of Indian Affairs and that as soon as our present supply of Trent Canal Charts is exhausted, the names will be revised accordingly to those of Nadie, Horse and Bird Islands".
Mr. Rorke is "agreeable to whatever the Dept. of Indian Affairs may suggest".

Dear Sir,

Re: Chart 2028, Sheet 2, Goat Island, $44^{o}38 - 79^{o}22$

In response to the letter received from S.B. MacPhee of the Canadian Hydrographic Service dated August 1st, 1985 (copy enclosed) we wish to offer the following comments.

We, the owners of property on Bird Island (Goat) have been paying taxes to Mara Township under the name Bird Island for more than forty years. A copy of the original survey that was officially registered as Bird Island is also enclosed.

However, this Island has continually appeared as Goat Island on the Government Charts. Due to the documentation enclosed and the consensus of all the owners of property on Bird Island we request that you change the Charts from Goat Island to Bird Island.

Please advise us of any further information or procedure necessary to follow up our request.

Yours truly,

Dear Sir,

Re: Chart 2028, Sheet 2, Goat Island, 44°38 - 79°22

Please refer to your letter dated July 26, 1985.

Goat Island has appeared on early maps as far back as 1914. In 1947 some maps started to use Bird Island but according to the field officer this name was never accepted locally.

In view of the above, the Canadian Permanent Committee on Geographical Names approved in 1954 the name Goat Island at 44°38 - 79°22 while the name Bird Island was rejected for the same feature. Since then, it is shown as Goat Island on maps and charts.

The Canadian Permanent Committee on Geographical Names with its Provincial Representatives is responsible for all geographical names in Canada.

If you want to change a name, I suggest that you send your request to:

Mr. Edwin B. Norton,
13 Mateman Road,
Stockwood,
Bristol, ENGLAND. BS14 8ST

Dear Mr. Norton:

In your letter of January 22 you asked us for the information on the name Fawn received in 1905 by the Geographer of the Department of the Interior.

We found the following information on the name Fawn in our records. It was the name of a post office in Mara Township, Ontario County, Province of Ontario between 1874 and 1904. At that date the name of this post office was changed to Rama Road.

We are returning the dollar which you had attached to your letter.

Sincerely yours,

Alan Rayburn,
Executive Secretary.

Dear Sir or Madam,

Would it be possible to receive a copy of the request and reply received by the Geographer of the Interior when in 1905 he wrote to each postmaster asking information about the derivation of the village name in which the postmaster served.

The name of the village I am interested in is I believe named FAWN as the enclosed copy of a family letter of 1881 indicates.

If there is no such place as FAWN could you please interpret the name on the top of the letter which indicates in the text that an ancestor helped to mind the Post Office in 1881.

I enclose a dollar to cover postage and if there is any charge, please let me know and I will be pleased to remit by return.

Thanking you for your kind attention so far and in anticipation,

I am, yours faithfully
Eddie Norton

Dear John

I wish you would write and let us know how your getting along I have written two or three times but never got an answer I would like to hear how the folks in Thorne are I suppose they write to you how is Emily I had a letter from James the other day he seems to be doing well he had just completed the Cornice work on the Grand Opera House in Hamilton he has built a house on the Beach and lives there during the Summer months and drives from there to the City every morning, and back in the evening, it is 7 miles each way, his letters are very short he never tells us anything

about old friends he writes [redacted] seldom that I suppose he forgets, Leonard and Jake are going to Build a barn for a man living next door to us Lilly is going to School, Mary Ann and I mind the Store and Post Office, the weather at present is very mild and Spring like the Snow fast disappearing but I expect we will have more yet, in a couple of weeks it will be Sugar making the Indians think it will be a good year for Sugar

We are all well at present and hope this will find you all the same with Love to your Wife & Emily not forgetting yourself and a Kiss for the Baby I suppose he is getting quite a Big Boy now, I remain Yours truly

Mr. J. Laurillard,
7 Clinton Close,
Knaphill Woking,
Surrey, ENGLAND.

Dear Mr. Laurillard:

In your letter of January 1 you asked for some information on the city of Orillia.

This city of approximately 24,000 people is located in Orillia Township, Simcoe County at latitude 44° 37 and longitude 79° 25.

We enclose a copy of pages 62 and 63 of Encyclopedia Canadiana which give some historical background on the city.

We hope that this information will be helpful to you.

Sincerely yours,

Dear Sirs,

I wonder if you could possibly let me have the following information:-

ORILLIA, Ontario

I am interested in the origin of the name of the above place and details of its settlement, which I believe took place in 1832.

Alternatively can you give me any other source or details of literature to which I might refer.

Yours sincerely

J. Laurillard

LOCAL NAMES

1. Pumpkin Bay
NOT: Portage Bay
NOR: Cedar Island Bay

Name Origin: -unknown, " According to local gossip, this (feature) was named by Stephen Leacock", ~~Mr. McCann Bays~~.
Reference: ~~-Map of City of Orillia, 1975, 1 3/4"=3,000'~~
Usage: ~~-50 years~~
Cedar Island ~~B~~ay was mentioned in the News Release, Lands& Forests, 1968, ~~as~~ after nearby island. No local usage for this name

*denotes former official status

....page 2

2. Invermara Bay
NOT: Inverman Bay
3. Invermara Point
Name Origin: -"Named by the Sisters who have retirement homes there."
Reference: -Map of City of Orillia,1975, 1 3/4"=3,000'
Appeared in a -News Release, Lands&Forests,1968.
Usage: -25 years
Inverman Bay mentioned in the same News Release ~~in item No. 1~~ , but it ~~is~~ was an error.

4. Moose Beach
Name Origin: -So named because of the "Moose Lodge Project" undertaken by the City of Orillia some years ago to improve the beach for recreational purpose ; a municipal beach maintained by the City's recreational department.
Reference: - Map of City of Orillia Usage: - 30-50 years.
5. Smith's Bay
Name Origin: -"Because the original farm house near the bay belonged to the Smith family."
Reference: -Map of City of Orillia
Usage: -"for a long time"

NAME CHANGE AND ALTERED APPLICATION

6. Shannon Bay
NOT: Shingle Bay*
Name Origin: -Land adjacent to bay patented to Clergyman James Shannon, December 16, 1848 (Ontario Domesday Book, v.9,p.421 , Patents Record Office). Street parallel to bay is Shannon Street.
Reference: -Map of City of Orillia
Usage: -10 years
Shingle Bay for this location was approved by C.B.G.N. April 1, 1954.

7. Shingle Bay
NOT: Hospital Bay
NOT: Crazy Bay
Name Origin: -descriptive
Reference: -Map of City of Orillia
-1835 Plan showing the Reserve on the Portage Road, O.A.
Shingle Bay actually applies to a larger feature that includes Shannon Bay (formerly Shingle Bay), ~~hence the name change in item 6~~ **and the altered application in item 7.**
Usage: 20 years +
Hospital Bay and Crazy Bay (because of Ontario Hospital School on shore) are used by very few people.

*denotes former official status

THE ONTARIO GEOGRAPHIC NAMES BOARD

NAME OF A PLACE

SERIAL #P/77/044
MAP #31D/11
MNR Dist: Huronia

DATE: October 18, 1977

The following name of a place has been considered by The Ontario Geographic Names Board and, pursuant to Section 3(8), R.S.O. 1970, c.314 is:

A) Ordered to be entered in the official record:

NAME	DESCRIPTIVE LOCATION	GEOGRAPHIC LOCATION
LOCAL NAME		
1. LAGOON CITY (D.R.Comm.)	Mara Twp., Simcoe Co., SE of ORILLIA on shore of L Simcoe.	44°33'00"-79°13'00"

Reason for Proposal: Public Request from Mr. Andrew Zsolt, President, Inducon Development Corporation.

Informants:
Mr. D.W. Schafer - District Manager, Huronia Dist. MNR
Mrs. McIntosh - Mara Township Clerk's Office
Mr. G. Graham - Brock Township Clerk
Mr. John Neglete - Beaverton Marina Operator
Mr. Frank Mangan - Deputy Clerk, Mara Township
Mr. A.W. Eccleshall - OPP, Brechin

1. LAGOON CITY

Name Origin: So named because it is a complex of canals and houses constructed in a marshy area.

The place name has been known to local residents and officials alike for approximately 10 years. Martha McKee and Andrea Smart, OGNB summer assistants, confirmed its local usage in a field trip to the area this past summer.

LAGOON CITY is a self-contained resort-recreation and retirement community. It has full municipal services. The population already registered is 2,000; the ultimate permanent and seasonal population will, planners estimate, exceed 15,000. There is a Lagoon City Yacht Club and a Lagoon City Community Association in the community.

Attention: Mr. Brian Young

Dear Brian:

Re: Map Revision: 31D/11 - Orillia

Further to the telephone conversation (Young-Roulston) regarding the deadline for the above map, enclosed is a copy of the Orillia map with recommended names and/or changes added.

The following names of places and features will be recommended to our Board for approval at the next quarterly meeting tentatively scheduled for September:

PLACES:

1. BAYSHORE VILLAGE
2. SANDY POINT BEACH
3. SOUTHVIEW BEACH
   NOT: SOUTH VIEW*
4. SOUTHVIEW COVE
   NOT: SOUTH VIEW*

These names are recommended for use. Please note that SOUTH VIEW is incorrectly placed on 31D/11, ed. 3. It was actually approved for the location of SOUTHVIEW BEACH and SOUTHVIEW COVE combined. Name changes to the two new names are recommended. What is labelled as SOUTH VIEW is BAYSHORE VILLAGE.

5. CARTHEW
6. PROPHET POINT
7. SCHEPELER

These names are recommended to be rescinded. Please note that PROPHET POINT (CBGN June 7, 1951 on 31D/NW) and PROPHET BEACH (CBGN October 28, 1959 on C.2015) are the same place. Since local usage is PROPHET BEACH,

.... page 2 * denotes names to be changed.

it is to be retained, and PROPHET POINT is to be rescinded. The feature name Prophet Point is, however, still in good standing.

8. COUCHICHING BEACH PARK

This is the name of a municipal park and is located as indicated. It has never been approved as a place name.

FEATURES

9. Pumpkin Bay
10. Invermara Bay
11. Invermara Point
12. Moose Beach
13. Smith's Bay

These names are recommended for use.

14. Shingle Bay
15. Shannon Bay

The name Shingle Bay is to be applied to the larger bay from Victoria Point to the projection immediately north of Four Mile Point. What is shown as Shingle Bay on 31D/11, ed. 3, is actually Shannon Bay. Both names are recommended for use.

Decision lists for these names will be forwarded to you after our Board meeting.

Yours sincerely,

Wing H. Chan

Mrs. Robt. G. McCracken,
Box 1056,
Glenwoodville, Alberta.
TOK 2RO.

Dear Mrs. McCracken:

Thank you for your inquiry on McCrackens Landing.

We have nothing in our records on the origin of McCrackens Landing. I contacted the Ontario Geographic Names Board to see if they had any information on this name, but drew a blank there as well. The name was approved on January 12, 1944 by the Executive Committee of the Geographic Board of Canada, our predecessor.

to
If you would like me or someone from the Ontario Board could write to the postmaster at McCrackens Landing to do some local inquiries. However, it would have to wait for about a month because McCrackens Landing post office is only open during the summer. Please let me know if you want further inquiries done.

There are several other McCracken (or McCrackin) features in Ontario. I am including these for your information.

McCracken Lake

This feature appears on map 42 E/5. It was named after F/O Gordon McCracken, J-19000, DFC. He enlisted at Swansea (part of Metropolitan Toronto) and died July 15, 1945.

McCrackins Beach (NOT McCrackens Beach)

This place was named after R.J. McCrackin, who subdivided the area in 1933. (He had a son called J. Alvin McCrackin.) The name appears on 31 D/11. The name was approved July 8, 1954.

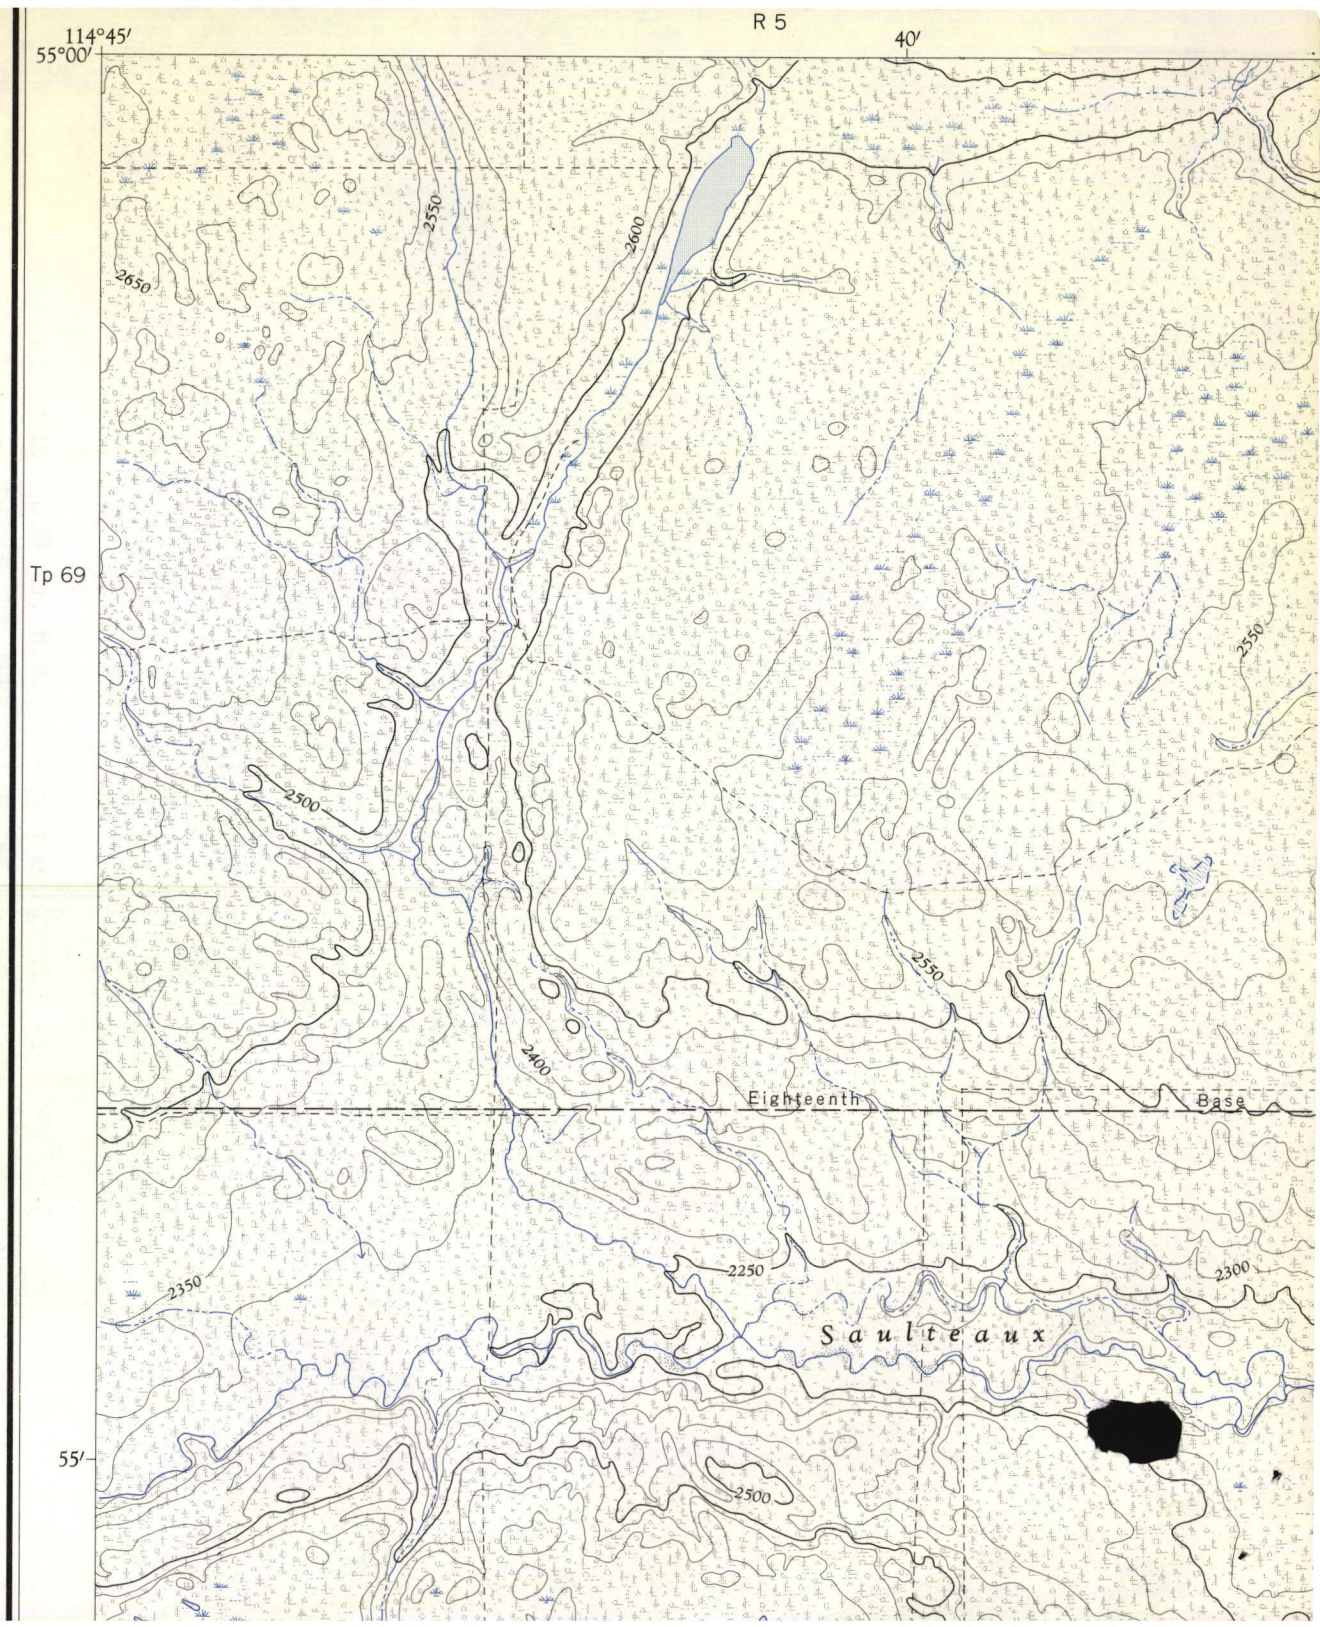

McCracken Island

This feature on 41 J/2 is in Serpent Harbour on Georgian Bay. It was named after a resident of Serpent River. (Unfortunately, we do not know this person's first name.) This name was approved

Attention: Editors of the revised edition of " THE ORIGIN AND MEANING OF PLACE NAMES IN CANADA" originally written by G.H. Armstrong and published in 1930, revised edition 1972 and now in the process of again being revised.

Dear Sirs and Mesdams (ie: all persons concerned with the new revised edit

I refer you to p 73 of the 1972 edition. I am concerned with the meaning given to COUCHICHING: lake in Ontario.' Mr. Armstrong suggests that the Indian word may mean "outlet" or "A pinery". The latter is hard to believe as the lime-stone rocks surrounding lake Couchiching are covered with cedar trees and no Indian worth his pemmican would mistake a cedar for a pine tree. Local legend has it that the Indian word means "LAKE OF MANY WINDS". This is certainly an apt and very beautiful description of this lovely lake. It is a shallow lake and therefore is easily whipped into high waves by winds. I have known very few days at "Couch" where a refreshing, if not stiff, breeze was blowing inshore from the lake. The Indians are very well known to give accurate and poetic descriptions of their surroundings. I am sure that the one thing they would have noted, above all else, on their canoe trips up lake Simcoe to the Severn River and Georgian Bay was this "cussed" stormy lake they had to contend with on their travels.

So, I hereby vote for "LAKE OF MANY WINDS" as a good English language translation for COUCHICHING!

Respectively submitted,

Dear Alan: Re: Jake Gaudaur Bridge

Reference is made to the letter that Mr. Delaney sent to this office concerning the Jake Gaudaur Bridge.

On November 27, 1973, Mr. Code decided that urban community and neighbourhood names and names of major bridges, dams and roads would be recorded by the Secretariat. Mr. Code is in favour of the bridge being known as the Jake Gaudaur Bridge.

At the ninth meeting of the Board, January 18, 1974, it was resolved that the Jake Gaudaur Bridge is an appropriate name for this structure, bearing in mind the famous oarsman's contribution to the area.

The name Jake Gaudaur Bridge will be officially recorded for our records. The list of particulars for this name B/74/001 has been enclosed.

Dear Ms. Engel:

A field officer of Topographical Surveys reported the name Menoke Beach about twenty years ago, and stated that it was a name recently chosen by the residents. He did not provide an origin.

Our first thought is that the name may have an Ojibway origin. An examination of a dictionary of that language provides the following:

Manakiki - Forest of maple trees
Minokami - Spring

The adjacent Amigo Beach and the Township of Orillia suggest a Spanish origin, but a cursory inspection of a Spanish dictionary reveals no word like Menoke.

Perhaps you could contact someone who lives there who may know who named it, and thus determine its origin. If you obtain an origin for it, we would appreciate having it for our records.

Chapleau is named for Sir Joseph Adolphe Chapleau (1840-1898) who was Secretary of State for Canada, 1882-1892. Prior to that he was the Prime Minister of Quebec, and from 1892 to 1898 he was Lieutenant Governor of Quebec.

I trust this information will be useful to you.

Dear Mr. Code

Enclosed please find copies of correspondence relating to the name of a bridge in the city of Orillia.

This correspondence makes it evident that there is considerable confusion about the "official" status of this name. It is also evident that the name "Jake Gaudaur Bridge" already tends to be shortened to "Gaudaur Bridge."

To my knowledge, the Committee has not at any time approved this name. It is a name which could properly be dealt with by the Committe, as the approval of the names of major bridges was accepted as being within the Committee's jurisdiction in connection with the work of the sub-committee on the "Concept of a Geographic Name."

Would you kindly advise whether you are prepared to recommend approval of "Jake Gaudaur" or "Gaudaur Bridge." In my opinion, "Gaudaur Bridge" would be definitely preferable, both to avoid a compound name which will probably be shortened in usage, and to avoid identification with the son of the man for whom the commemoration is actually intended.

Sincerely yours

Dear Mr. Delaney:

Re: Jake Gaudaur Bridge, Orillia

Enclosed are copies of some documents received from the Orillia Historical Society in support of a request that we add the name Jake Gaudaur Bridge to our charts 2028 and 2015.

Regrettably, new editions of both charts have recently gone to press so it will not be possible to accede to the request at this time, but it would be appreciated if you could let us know if the Ontario Geographic Names Board has accepted the name.

Meanwhile, we are publishing a booklet, The Trent-Severn Waterway Small-Craft Guide, in which we would like to use the name. This will be produced in 1973.

The Society's letter of May 4, 1973, to the Minister of Transportation and Communication says the bridge was named the Jake Gaudaur Bridge at its official opening. The Orillia Packet Times editorial indicates the Department of Highways had previously declined the name. The editorial makes a strong case for the use of such names which I'm sure you will find interesting.

If the name is acceptable to the Province, this Service would have no objection to using it on a chart where space permits.

Dear Mr. Gilles:

It is my understanding that Bill Cranston has been speaking with you regarding our proposal to have "The Jake Gaudaur Bridge" marked on Federal Navigation Maps.

The Bridge itself is under the jurisdiction of the Ontario Ministry of Transport & Communications according to Agreement #72601. However, it is a major crossing of the Trent Canal System which is under the Ministry of Indian & Northern Affairs.

While it was officially named "The Jake Gaudaur Bridge" by the Provincial Government in 1960, there has been no recognition of this on maps or charts by either the Provincial or Federal Governments.

The City of Orillia has enthusiastically endorsed the Orillia Historical Society's proposal to Provincial and Federal Governments and to the Archaeological & Historic Sites Board.

We would be very pleased if the name could be included in the next printing of navigation maps for the Trent Canal System.

The enclosed copy of a letter to the Provincial Minister of Transportation and Communication will be self-explanatory. A similar letter has also been sent to the Federal Minister of Transport and Communications urging the inclusion of the name on Navigation Maps. It would be of great assistance if the City or Orillia would endorse this and make its views known to the Provincial and Federal bodies involved.

This matter has been brought to the attention of Planning Board whose responsibility it is to modify the City of Orillia Map.

I have also suggested that the name and location of the "Brewery Bay Tennis Club" should be included under "points of interest" on the new City of Orillia Map.

Dear Sir:

I would like to bring to your attention a situation in the Lake Couchiching - Lake Simcoe section of the Trent Canal System that we feel could be rectified by the Department of Transportation and Communications. It concerns a bridge in the system that crosses the Narrows between the two above mentioned lakes.

This bridge was named "The Jake Gaudaur Bridge" at the official opening on August 6, 1960. The enclosed text of a plaque erected by the Archaeological and Historic Sites Board at that time would briefly acquaint you with the accomplishments of this notable citizen of Orillia,

The bridge, however, which was constructed at a cost of over $730,000 has never been officially marked by name or any subsequent Provincial Road Map. I am enclosing a copy of an editorial from an 1960 issue of the Orillia Packet and Times which is as timely today as it was then.

It would seem that the first step in establishing the name of the Jake Gaudaur Bridge could be the erection on the bridge itself of name plates at each end together with suitable highway signs at the approaches. This should be augumented as soon as practicable by the inclusion of the name on Official Provincial Road Maps.

The Orillia Historical Society will be very interested in your thoughts on this and we hope that your Department will give this matter serious consideration.

WORDING ON THE PLAQUE

"JAKE" GAUDAUR, 1858 - 1937

One of the world's greatest oarsmen, Jacob Gill Gaudaur was born and lived in Orillia. With Foster of the United States he won the world's championship in the double sculls on Lake Couchiching in 1892. He established a world's record for three miles with a turn at Austin, Texas, in 1893, and improved his own time for that event the following year. In 1896 he won the world's single sculls championship on the Thames, England, and in 1898 successfully defended that title at Vancouver. Following his loss of the singles championship to George Towns at Lac Portage (Verona) in 1901, Gaudaur, at the age of 43, retired from competition.

Erected by the Ontario Archaeological and Historic Sites Board.

ORILLIA PACKET & TIMES — 1950

Let's Brighten Dreary Road System With Historic Names

It was learned recently that the Ontario Department of Highways has declined to name the new bridge to be built at the Narrows here the "Gaudaur Bridge", because such action might establish a precedent. In other words, communities elsewhere might ask to have similar structures named after people or events prominent in local history.

And, in heaven's name, why not? Is this province to become a featureless expanse traversed by unnamed roads and anonymous bridges, leading from one dreary town to another? Surely the roads and bridges of this province are but a part of our human community, and as such their identification should be related to human values. Numbers are cold, anonymous statistics; names are warm with human associations, evocative of affection, nostalgia, romance.

Think of the sentimental outpourings when old Waterloo Bridge was dismantled in London; sentiment that saw many of the lamps from this beloved structure brought to this country and set up at public expense. Could the destruction of Bridge Structure C-325 have evoked such nostalgia? History glows with the names of famous bridges, large and small, including such Canadian examples as the Ivy Lea, the Rainbow, the Blue Water and the Lion's Gate, and in Britain, of course, there are thousands, ranging from the Brig o' Doon to Tower Bridge.

Canada is still a comparatively young country and, as such is notoriously heedless of its historic heritage. Yet an awareness of history and tradition is a hallmark of a civilized society, and there is an increasing and healthy interest evidenced by Canadians in their hitherto neglected past; an interest which has been greatly stimulated in Ontario by the enthusiasm of Premier Leslie Frost himself, and by the provincial organizations which have been established by his government to record the romantic history of this part of the country. In our older towns and cities, the names of men and women who shaped the foundations of the community are immortalized in the names of streets, of hills and rivers, of buildings and bridges.

It is surely fitting that this policy should be reflected in the affairs of the department of highways, particularly since this department is affected, to a greater degree than any other, by the influx of tourists to the province. Nothing is more attractive to such visitors than local traditions and historic sites; even such trifles as the distinction of some roads as "The Queen's Highway" are favorably noted and commented on, particularly by visitors from the United States. Such people are repelled by anonymity and uniformity as much as they are attracted by the distinctive and the historic. A Yonge Street, cut from the virgin bush by Simcoe's Queen's York Rangers; a Narrows, where war parties of Mississaga, Iroquois, French and Huron once passed on their grim missions, where a family of watermen whose generations included a world champion sculler, lived and still live; such sites have romance and a glamour which should not to be hidden in the teeming traffic of just another anonymous highway structure.

Far from shrinking from establishing a precedent by assigning names to its bridges, the Ontario Department of Highways should be seeking to identify its bridges and highways ever more closely with the history and natural features of the province which they serve. It could not find a better place to begin than with the projected Gaudaur bridge at the Narrows.

Dear Mr. Delaney:

Re: 31D/11 - Orillia, Ontario.

Reference is made to your letter dated December 17, 1970 submitting a name print and name list for the above map.

The submission has been examined according to your request and as a result the following comments and recommendations are made:

8A. Brechin East

This station name has been added to the name print. It is still listed in CNR Timetable 57 and was approved on August 4, 1960 for 31D/11.

15A. Floral Park

The retention of this name for a settlement should be maintained. The 1966 Census indicated a population of 24.

20. Maple Avenue
21. O'Connell
27. Tanglewood Beach

The Township Clerk in January of 1971 indicated that these names were no longer in use.

Maple Avenue, O'Connell and Tanglewood Beach are recommended for rescission.

30. Couchiching Beach Park

This name applies to a public recreation park used by residents and visitors of Orillia, not a settlement as indicated on the name print. Although the names list indicates the name to be approved, we have no record of an approval date and have maintained the name on a blue information card.

.....2.

43. Udney

Although listed in the name list, Udney was not shown on the name print. The name has been added.

58. South View

Our O.F.R.I. base map and the co-ordinates shown in the 1962 Gazetteer indicate that this name applies to the area circled in yellow. The Udney Postmaster in 1954 said there were 20 cottages here. According to the application shown on the present name location print and the corresponding location on the 1954 edition of 31D/11 there are only three buildings shown.

We are checking with the township clerk on the name's application.

64. Prophet Beach

Prophet Point (Settlement)

The name Prophet Point was approved as a settlement in the minutes of June 7, 1951 for the Orillia 31D/NW map. Prophet Point was listed in the Gazetteer of Southwestern Ontario, 1952 but did not appear in the 1962 Gazetteer. The settlement designation appeared on the 1940, 1947 and 1965 editions of 31D/NW.

Prophet Beach was approved on October 28, 1959 on Chart 2015, apparently at the same location as Prophet Point. The name list for this chart also listed the settlement of Prophet Point. Prophet Beach only appeared on the name sheet and was not listed in the name list according to a letter of September 1, 1959. Thus no references for this settlement were then provided. Prophets Beach is listed in the 1962 Gazetteer.

The 1966 Census lists Prophets Beach with a population of 4. The name list of April 23, 1964 only listed the settlement of Prophet Point (item 143A).

We are currently writing to the Mara Township Clerk to determine which name is presently in use and we will inform you of any information upon receipt.

85. Shingle Bay

The Lands and Forests News Release of 1968 showed this bay identified as Shannon Bay.

We are asking the bay's local name from the Orillia Town Clerk and will inform you of the name in use.

103. Floral Point

This name has apparently been used to describe a point of land and to a lesser extent, a group of summer cottages on this point. The group of summer cottages, according to the Washago Postmaster in 1954, were really a part of the Floral Park settlement and the name Floral Point was apparently not known for the locality.

The name Floral Point as identifying a point of land is presently recommended for approval.

Avery Point (E-2,3)

Our records show that this name hasn't been adopted as a feature name, only as a settlement designation.

Avery Point is presently recommended for this feature.

Inverman Bay (B-2)

Smiths Bay (B-2)

Cedar Island Bay (B-2)

These names were shown on a map portrayed in the Department of

....3.

Lands and Forests News Release in 1968. We are presently writing to the Orillia Town Clerk to determine if these names are locally in use.

Hawkestone Creek (A-1)
This name, recommended for approval on December 3, 1971 on 31D/6, has been added to the name print.

Bass Lake Provincial Park (A-2)
This park of 96 acres has been added in yellow on the name print. We have enclosed a copy of the regulation describing the park's boundaries for your records. Bass Lake Provincial Park is listed for approval.

Enclosed please find one copy each of the name print and list for 31D/11.

Dear Mr. Code:

RE: 31 D/11, Orillia, Ontario

Enclosed are two copies of the name list and name location print for the above map.

Your comments and recommendations on the proposed names and on the following notations would be appreciated.

15A. Floral Park (Locality)

The gazetteer shows this name deleted, but the decisions of 8 July 1954 on 31 D/11 deleted the name Floral Point which was approved 1 April 1954. Floral Park was a post office until 30 September 1970 when the office was closed. Is this name still in use, and should item 103 Floral Point be re-instated?

Please return one copy of the name list and name location print with any additional nomenclature information you might have for this area.

Yours sincerely,

G. F. Delaney
Secretary.

Dear Mr. Gray:

Further to our letter of 22 July, 1965, please be advised that the Canadian Permanent Committee on Geographical Names have approved the names Grays Bay (settlement), Grays Bay and Hopkins Bay for the water features. New maps of a suitable scale will carry these names.

Your co-operation in this matter is greatly appreciated.

Yours sincerely,

Department of the Interior,

OFFICE OF GEOGRAPHER,

Ottawa, MAR 30 1906

DEAR SIR,

I wish to obtain information respecting the derivation of the place-names of Canada—of the names of the villages, towns, cities and of the natural features, such as rivers, lakes, capes, bays, mountains, etc.—and shall be much obliged if you will give me any information that you may possess or can procure, respecting the *below-mentioned name* and also respecting the names of any other features in the vicinity of your residence concerning which you have knowledge.

In many localities, the older generation is passing, or has passed away, and unless steps are taken to collect this information, it will, in many instances, be too late. In most communities there are persons who take an interest in things of this nature or who have been connected with the early settlement of the locality. If there are any such in your neighbourhood, will you kindly submit this to them.

Below I have indicated the lines along which I desire information and also the commoner derivatives of place-names in Canada :—

(1.) Whether named after a village, town or city, or natural feature in any other province or country ; if so, the name of province or country in which the original locality is situated.

(2.) Whether named after a person ; if so, the person's name, occupation, spelling of name as rendered by the person and any details of interest respecting him (or her) such as (*a*) Whether alive or, if dead, approximate year of death ; (*b*) Whether at any time a resident of the locality and, if so, whether still living there.

(3.) Whether named after a natural feature ; if so, any details respecting the origin of the name as applied to the feature and the geographical position of the latter.

(4.) Whether the town, village or city ever had any other name or names ; if so, at what dates, approximately, and the origin of these obsolete names.

Any information bearing on the above will be deemed a courtesy.

Yours truly,

JAMES WHITE,
Geographer.

Kindly write your reply on the attached sheet.

To ensure free transmission of your reply I enclose herewith an addressed envelope which will come free of postage.

Atherley

Ontario Co. Ont

I cannot procure much information as to the derivation of Atherley. I am informed that it is named after a little town of that name in England -

This village is beautifully situated on a strip of land between Lake Simcoe & Lake Couchiching & is a great resort for tourist in the Summer, there are four Summer hotels here with an average accomodation of about one hundred

Dear Mr. Code:

RE: 31 D/11 Orillia, Ontario

The name Greys Bay (settlement) and Greys Bay NOT Graves Bay for the water feature were approved 8 July, 1954 on 31 D/11 as recommended in Mr. Beatty's letter dated 17 May, 1954.

Mr. W.K. Gray of Rama Road has advised as follows: "Grays Bay was named after my father Dr. S.B. Gray, who purchased the first lot on the lakeshore on this bay (circa 1928). Hopkins Bay was named after the original owner of the farmland to the north. The family (part Indian) occupied the house nearly opposite the bay on the Rama Road (circa 1920)".

On the enclosed map we have indicated the locations of Hopkins Bay and Grays Bay as given by Mr. Gray.

Do you recommend the approval of Hopkins Bay, the altered application of Grays Bay NOT Greys Bay, and the change in spelling of Greys Bay (settlement) to Grays Bay?

Please return the map.

Yours sincerely,

J. Keith Fraser,

Dear Mr. Gray:

RE: 31 D/11 Orillia, Ont.

Thank you for your letter of 9 July, 1965, which was forwarded to this office by Mr. E.D. Baldock.

The spelling Greys Bay for the summer resort and Greys Bay for the water feature was approved in 1954, due to information we received that they were named after an early settler, J. Grey, and this was the spelling submitted.

Would you please indicate on the enclosed portion of the above map the correct locations of Grays Bay, and also of Hopkins Bay.

After whom are these features named, and are the names in local use?

Your interest in this matter is very much appreciated, and enclosed for your convenience is a self-addressed envelope which does not require postage.

Yours sincerely,

Dear Sir:

Re: Division of Chippewas of Lakes Huron and Simcoe - Ontario.

I attach for your records a copy of a memorandum dated January 4, 1965, to the Assistant Deputy Minister (Indian Affairs), by which the Minister, pursuant to Section 17 of the Indian Act, ~~formerly~~ recognizes the division of the above noted group of Indians into three Bands and the lands held by each Band.

The unsurrendered Islands in Lake Couchiching, formerly held by the three Bands in common, are now part of Rama Indian Reserve No. 32 and they should be included in the reference plan of the Reserve which I understand is now being prepared.

You will note that Christian Island Indian Reserve No. 30A was not listed for the Beausoleil Band. This was done intentionally for the reason that when the land comprising this Reserve was set apart as such, it was set apart for the exclusive use of the Beausoleil Band. The names of Chiefs Snake and Aisance were transposed in the 5th and 6th paragraphs of the memo, however, as this does not affect the purpose of the memo the changes were made in ink.

Yours truly,

for David Vort,
Administrator of Lands.

SUBJECT

Chippewas of Lakes Huron and Simcoe

anch records disclose that the group of Indians known as the Chippewas of Lakes Huron and Simcoe were a part of those Indians who had migrated from Lake Superior and settled in the western part of Upper Canada.

The Chippewas of Lakes Huron and Simcoe occupied for some years prior to about the year 1838 that part of the County of Simcoe lying between the Narrows connecting Lakes Simcoe and Couchiching and the Village of Coldwater. They surrendered these lands for sale in 1836 (Surrender No. 48, page 117, Vol. 1 - Indian Treaties and Surrenders).

The group was under three Chiefs - Yellowhead, Aisance and Snake.

In or about 1838 Chief Yellowhead and his followers removed to and settled on mainland on the east side of Lake Couchiching in the Township of Rama, County of Ontario. The land was purchased and paid for from the general funds of the tribe. The descendents of Yellowhead and his followers continue to reside there; the land being known as Rama Indian Reserve No. 32 and the group being known as the Chippewas of Rama.

Chief ~~Aisance~~ SNAKE and his followers took up residence on Snake Island in Lake Simcoe where their descendents continue to reside on what is known as Georgina Island Indian Reserve No. 33 consisting of Georgina, Snake and Fox Islands and the Sand Islands. The group is known as The Chippewas of Georgina Island.

In 1842 Chief ~~Snake~~ AISANCE and his followers took up residence on Big Beausoleil Island in Georgian Bay.

..... 2

In 1856 the three groups surrendered for sale four designated islands in Lake Simcoe, one designated island in Lake Couchiching and all the islands in Georgian Bay except the three islands forming the Christian Island group and consisting of Christian, Hope and Beckwith Islands. (Surrender No. 76, page 203, Vol. 1 - Indian Treaties and Surrenders). This Surrender included Big Beausoleil Island to which Chief Snake and his followers had moved in 1842. This group eventually took up residence principally on Christian Island and their descendents continue to reside there on what is known as Christian Islands Indian Reserve No. 30 consisting of Christian, Hope and Beckwith Islands and the group is known as the Beausoleil Band.

For one hundred years, and probably longer, the three groups have been treated as three distinct bands; each has its own Band funds to which revenue arising from their respective lands has been credited; from time to time each group has surrendered land for sale or lease without reference to the other groups. The situation with respect to the three groups of Indians and the lands they occupy was investigated by a special Commissioner in 1925 and 1926. The Commissioner had been appointed by the Department to inquire into a claim by the Rama group to share in the proceeds of the sale of timber on Hope and Beckwith Islands these being two of the islands claimed by the Christian Island group. The Rama, Beausoleil and Christian Island groups were each represented by legal counsel before the Commissioner who, on the basis of the facts presented in the course of the hearings, concluded:

> "That each of the three Bands has ... been regarded as separate and distinct and each solely entitled to lands they respectively occupy, and that the Christian Island Band is the recognized owner of Hope and Beckwith Islands and solely entitled to the proceeds of the sale of the timber from the said Islands."

That there are three distinct Bands each with its own lands is recognized by the Councils of the three Bands and represents the situation as they have regarded it as being for many years. They have confirmed it by a joint resolution dated December 28, 1964.

While the foregoing represents the de facto situation with respect to the three groups and their lands no formal recognition of there being

..... 3

three distinct Bands each with its own lands can be found in Branch records. It is desirable in the interest of certainty in the administration of the lands involved that formal recognition be given to the existence of three distinct Bands each with its own lands. Therefore I recommend that the Minister, pursuant to Section 17 of the Indian Act, formally recognize the three Bands and the lands held by each Band.

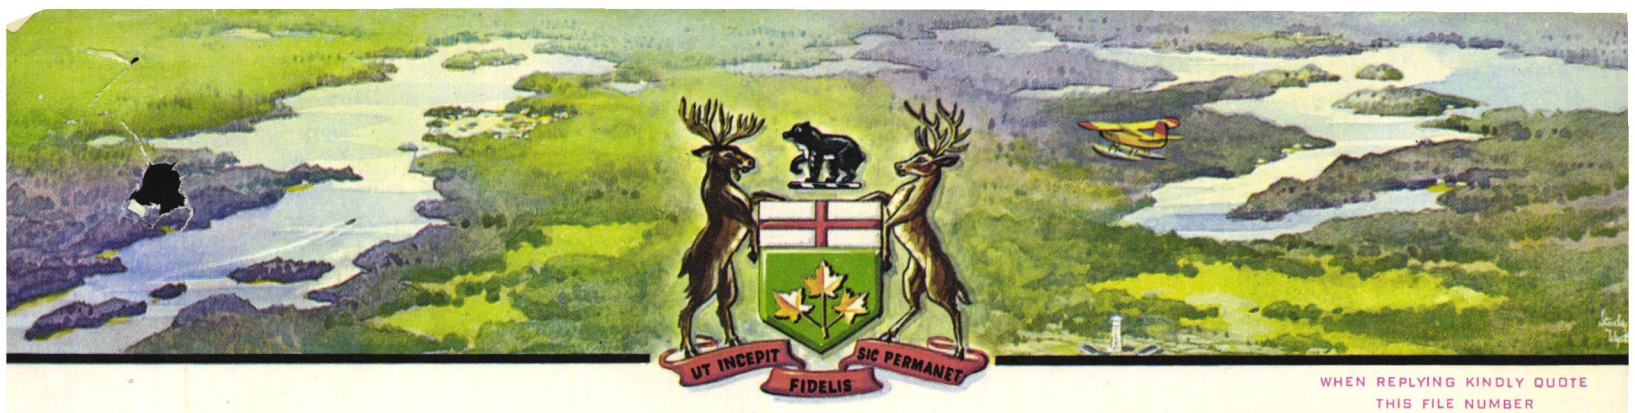

Band	Reserve
Chippewas of Rama	Rama Indian Reserve No. 32 consisting of the mainland area in the Township of Rama, County of Ontario and islands in Lake Couchiching consisting of Nadie Island, Ship Island, Portage Island, Green Island, Chief Island, Islands numbered 1 to 3, inclusive, and Islands numbered 5 to 16, inclusive.
Chippewas of Georgina Island	Georgina Islands Indian Reserve No. 33 consisting of Georgina, Snake and Fox Islands and the Sand Islands all in Lake Simcoe.
Beausoleil	Christian Islands Indian Reserve No. 30 consisting of Christian, Hope and Beckwith Islands in Georgian Bay, Lake Huron.

Proceeds of sale or lease of surrendered islands in Georgian Bay shall continue to be divided among the three Bands as heretofore.

Jules D'Astous.

Dear Dr.Fraser:- Re: 31 D/11 Orillia - Ontario

It has been brought to my notice that Chiefs Island in Lake Couchiching is identified on the above map as being a part of Indian Reserve No.32 the major parts of which are on the easterly mainland in the Township of Rama.

This is contrary to the island being identified on 31 D/NW Orillia as part of Indian Reserve No.33. According to the records of this office, this is the correct number designation as apparent on our Map 21 - Southern Ontario.

It will be appreciated if you would recheck this information with your own records, and at your convenience inform me if our records are in error by reason of any change made by the Indian Affairs Branch in recent years. If so we will amend our records to agree. If our present information is correct, will you be good enough to inform the responsible mapping unit relative to the future revisions of 31 D/11 West Half.

In reviewing "The Story of Simcoe County" by Ernest C. Drury, we note that on page 22 a picture of Stephen Leacock's home is shown with the location being Brewery Bay on Lake Couchiching near Orillia.

Since our records do not contain the location of Brewery Bay, it would be appreciated if you would show on the enclosed map the feature designated by this name and also supply information on the origin of Brewery Bay.

A self addressed envelope which requires no postage is enclosed for your convenience.

Yours sincerely,

Dear Mr. Fisher:

Please refer to our letter of 23 July, 1962 on the names Udney, Ontario, and Kinnaird, British Columbia.

Our records show that Udney was named after "Udny", parish and village, Aberdeenshire, Scotland which probably from Gaelic allt an bheath, 'river of the birches', bh lost by aspiration (Place Names of Scotland, James B. Johnston, second edition 1903). The name is mentioned in Lovell's Gazetteer of 1895.

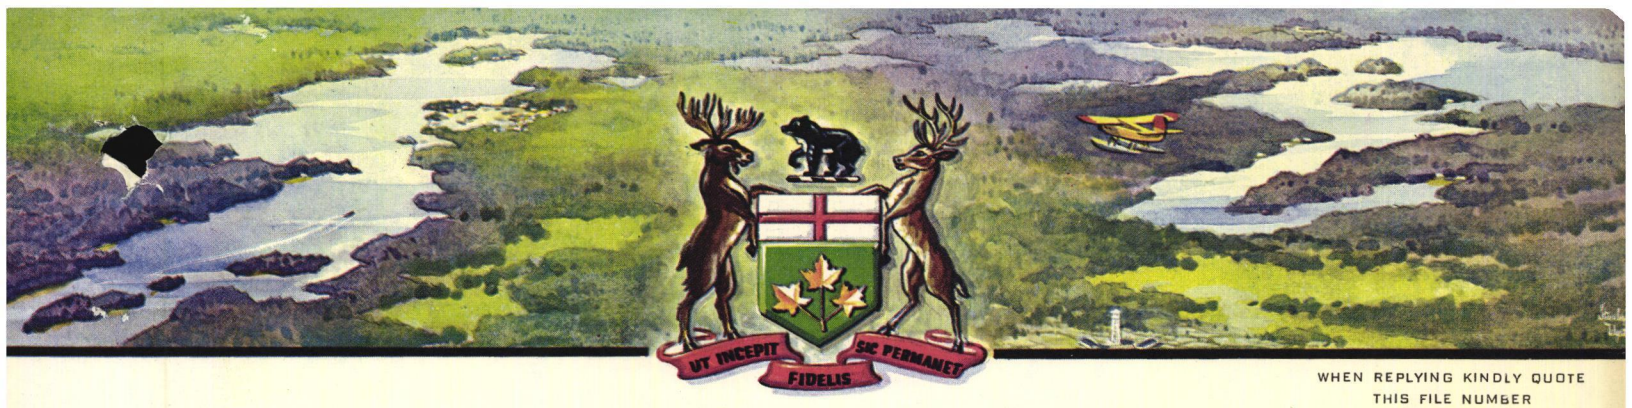

Kinnaird, according to our records was named after an early resident.

The Clerk of the Corporation of the Village of Kinnaird advised that his search has been fruitless. The Divisional Engineer of the C.P.R. at Nelson has checked their records but found no particulars, other than that Kinnaird "was named after a resident in the vicinity". The original Kootenay land registers were searched, but there is no mention of an early settler of that name, nor is there any pertinent record in the Provincial Archives.

Yours sincerely,

RE: Orillia 31 D/11 Ontario

We have had an inquiry on the origin of the settlement name Udney, Mara Township, Ontario County at 44°37' - 79°12'.

Our records show that this settlement was named after Udny Parish and Village, Aberdeenshire, Scotland, but the source of this information is not given. The name is mentioned in Lovell's Gazetteer of 1895.

Any additional information you might have, or could obtain on this name would be very much appreciated.

When the names for the above map were under consideration you noted in your letter dated 8 February, 1954, that the additional name Old Brewery Bay was part of Lake Couchiching, but that the exact location of this feature was unknown although local inquiries were being made by your office at that time. The name was therefore listed in Minutes dated 6 May, 1954 as not adopted (pending identification).

Possibly you might have further information at this time so that the matter could be clarified for gazetteer purposes.

CHAPTER 14

ADJUSTMENT CASES

Definition

1. An adjustment case is one where circumstances make necessary the suspension of an agreement without immediate intention of rescinding or otherwise terminating such agreement. The most common reasons are death, mental incompetence, or termination of tenancy.

General Instructions

2. (1) When a case is placed in adjustment, Form VLA 232, Special Action Notice, and Form VLA 311, Statement of Account, shall issue.

(2) Approved unexpended disbursements shall be held in abeyance. Outstanding vouchers or purchasing orders which have been approved and passed by the Regional or Field Supervisor may be honoured if the vendor will not agree to cancellation of the transaction, but no new commitments shall be entered into.

(3) Adequate measures shall be taken by the Field Supervisor to protect the Director's security. (See chapter 15, volume V.)

(4) Concurrently with action under subsection (1), file references on subsequent correspondence shall bear the suffix "ADJ" in the account number.

(5) Proper disbursements made during the period that a case is in adjustment shall be charged to the veteran's account.

Deceased Veterans

3. (1) On the death of a veteran the Regional Supervisor shall submit to District Office a report in duplicate setting out

(a) the condition of security, both real and chattel, and arrangements in effect for the protection of the Director's interest therein;
(b) the names and addresses of the heirs, devisees or legal representative of the deceased veteran; and
(c) the intention of heirs, devisees or legal representative with respect to the administration of the estate.

4. (1) As provided in section 28 of the Veterans' Land Act, hereinafter referred to as the Act, the rights and obligations of the deceased veteran devolve upon his heirs, devisees or legal representative.

(2) The Director will recognize only the legal representative of the deceased veteran as his immediate successor to such rights and obligations under the Act.

(3) The District Superintendent shall obtain from the legal representative Letters Probate, Letters of Administration, or such equivalent documents as may be recognized under Provincial law. Certified notarial copies of these documents may be accepted. After the account is reinstated in the name of the legal representative, a Special Action Notice shall be issued and all relevant legal documents shall be forwarded to Head Office for sake keeping.

(4) With the written consent of the Director, the legal repre - sentative may assign any Agreement for Sale previously executed between the Director and the veteran to the beneficiaries named by the veteran in his Will or to his heirs under the Provincial Statutes which govern the distribution of estates.

Council of this municipality has been approached by Ada Estates requesting that the name of this island be changed to "Little Falls Island." It might be stated here that the island is known locally by both names.

Council is in agreement that the name "Rattlesnake Island" is not conducive to rapid development of this attractive property as compared to the name "Little Falls Island".

I have been a resident of this District all my life and we have always guarded against calling the above "Rattlesnake Island", as it would determintal to our business in this district.

I have been a resident here since 1909 and to my knowledge there has never been any rattlesnakes on the Island and are therefore at a loss to understand just how this name originated but we have always stressed that it is "Little Falls Island".

Hoping you will give this matter your kindest consideration.

Dear Mr.Munroe:- Re: Orillia 31 D/11 - Ontario.

As suggested in your letter of June 8th, further information has been obtained relative to the name Little Falls Island as an alternative to the established name Rattlesnake.

It is apparent that Mr.W.Doner, who requested the change of name, is at present anticipating the selling of the entire island to a Mr.Buckner of Willowdale, Ontario, who presently has a summer residence on a portion of the island.

Mr.Buckner, in contacting this office via telephone, states that the local inhabitants in the surrounding area do call the island "Little Falls" island, and the name Rattlesnake is known only on official papers such as deeds, etc.

The name Little Falls I. derives from the fact that a small falls, approx. 10 feet high exists at the northerly side of the island and adjacent to a picnic park maintained by the Ont.Dept. of Highways, on Highway No.11.

As there appears to be insufficient reason to maintain the name Rattlesnake other than its continued appearance on published maps, it is suggested that the Board give further consideration to the changing of the name as requested.

Memorandum

To: Mr. G. M. Munroe

Re: Orillia, 31-D-11

With reference to your memorandum of May 27 concerning the alteration of Rattlesnake Island to Little Falls Island, it is not clear from the correspondence what reason exists for the proposed change.

As this is in a settled area it would not appear wise to consider an amendment until the reasons for a change are made evident.

File 3662 returned herewith.

RE: Orillia 31 D/11 Ontario

Enclosed is letter from Mr. Beatty dated 22 May, 1959, submitting the name change to Little Falls Island from Rattlesnake Island.

According to our records Rattlesnake Island was adopted 7 June, 1951 on Orillia 31 D/NW as a new name added to the map by the Province, but no information on the origin was given. (Name supplied during gazetteer review)

When the names for 31 D/11 were considered, the field report indicated the name Snake Island for this feature, but Mr. Beatty recommended the retention of the name Rattlesnake Island, as in the gazetteer since Snake Island is duplicated in Lake Simcoe at 44 19 - 79 29.

Mr.G.M.Munroe,
Secretary,
Canadian Board on Geographical Names,
Ottawa, Ontario.

Dear Mr.Munroe:- Re: Orillia 31 D/11 West - Ontario.

A request has recently been received from Mr.W.H. Doner, of Washago, Ont., to have the name Rattlesnake I. changed to Little Falls I. The island is located in the Severn R., Rama Tp. Ontario County, as shown on the map copy enclosed.

The name Rattlesnake Island, is referred to in our correspondence dated Feb.8th,1954, re the above map, as being preferable to Snake I. because of the duplication of Snake I.in L. Simcoe.

In a letter dated Dec.23rd,1952, in answer to Mr. Doner's original request dated Dec.5th,1952, I suggested to him that an application to the C.B.G.N. would be the proper means of obtaining official approval of the proposed change.

No further action has been taken until the letter dated March 26th,1959, was received from Mr.Doner.

If the Board considers the suggested change as a suitable one this office has no objection, and the change will be incorporated in our records if and when it appears in the Board's report.

Yours very truly,
F.W.Beatty

Mr.G.M.Munroe,

Dear Mr.Munroe:- Re: Orillia 31 D/11, W½, Ontario.

This office has recently been informed of the erroneous spelling of two names appearing on the above sheet.

The informant, Mr.T.J.MacDonald, 78 Grosvenor St. Toronto, who states that he was born in the area near MacDonald Beach (shown on 31 D/11 as McDonald Beach) which was originally named after his grandfather. He also mentions that Mulley Point should be spelled Mooley Point, so called because the early farmers of the area used to swim their cattle from this point to nearby Strawberry Island.

Mr.MacDonald states that these names are to be found correctly spelled in the records of the County Registry Office at Whitby, Ontario.

While the Orillia map 31 D/11 cannot be changed now it was considered advisable that this information could be given consideration and any decisions of the Board would then be on record for reference when future ervisions are made.

A map copy indicating these features is enclosed.

CHAPTER 14

ADJUSTMENT CASES

Definition

1. An adjustment case is one where circumstances make necessary the suspension of an agreement without immediate intention of rescinding or otherwise terminating such agreement. The most common reasons are death, mental incompetence, or termination of tenancy.

General Instructions

2. (1) When a case is placed in adjustment, Form VLA 232, Special Action Notice, and Form VLA 311, Statement of Account, shall issue.

(2) Approved unexpended disbursements shall be held in abeyance. Outstanding vouchers or purchasing orders which have been approved and passed by the Regional or Field Supervisor may be honoured if the vendor will not agree to cancellation of the transaction, but no new commitments shall be entered into.

(3) Adequate measures shall be taken by the Field Supervisor to protect the Director's security. (See chapter 15, volume V.)

(4) Concurrently with action under subsection (1), file references on subsequent correspondence shall bear the suffix "ADJ" in the account number.

(5) Proper disbursements made during the period that a case is in adjustment shall be charged to the veteran's account.

Deceased Veterans

3. (1) On the death of a veteran the Regional Supervisor shall submit to District Office a report in duplicate setting out

(a) the condition of security, both real and chattel, and arrangements in effect for the protection of the Director's interest therein;
(b) the names and addresses of the heirs, devisees or legal representative of the deceased veteran; and
(c) the intention of heirs, devisees or legal representative with respect to the administration of the estate.

4. (1) As provided in section 28 of the Veterans' Land Act, hereinafter referred to as the Act, the rights and obligations of the deceased veteran devolve upon his heirs, devisees or legal representative.

(2) The Director will recognize only the legal representative of the deceased veteran as his immediate successor to such rights and obligations under the Act.

(3) The District Superintendent shall obtain from the legal representative Letters Probate, Letters of Administration, or such equivalent documents as may be recognized under Provincial law. Certified notarial copies of these documents may be accepted. After the account is reinstated in the name of the legal representative, a Special Action Notice shall be issued and all relevant legal documents shall be forwarded to Head Office for sake keeping.

(4) With the written consent of the Director, the legal repre - sentative may assign any Agreement for Sale previously executed between the Director and the veteran to the beneficiaries named by the veteran in his Will or to his heirs under the Provincial Statutes which govern the distribution of estates.

Dear Mr.Munroe:- Re: Orillia 31 D/11 Ontario

The omission of comments re Brechin Point in my letter of May 17th was an oversight.

The following information will clarify the status of this name.

Data received from the Postmaster at Brechin indicates this name as identifying a cottage resort area along the shore of L.Simcoe between Concord Point and Brechin Beach, situated more particularly south of the line between Concessions 3 and 4 of the Township of Mara, and extending approximately one third of a mile southwards to the tip of the point of land indicated on the map. It was named and subdivided in 1933.

I trust the above information will be sufficient.

CHAPTER 4

AGRICULTURAL TRAINING

Authority

1. Section 6 of the Veterans' Land Act, hereinafter referred to as the Act, makes provision for

(a) placing veterans with selected farmers for practical instruction in farming, and
(b) supplying instructors and inspectors to assist veterans with information on and instructions in farming.

With respect to (b), full use shall be made of existing courses, and, if such courses do not meet the needs of the Administration, suitable arrangements shall be made by District Office or Head Office with the appropriate Dominion or Provincial departments of government, the extension departments of Canadian universities and recognized agricultural schools and colleges. In effect, provision is made for pre-establishment training through training-on-the-job, and post-establishment training by means of short courses.

General Instructions

2. For the purposes of this chapter the date of establishment shall be

(a) the date that interest commences when the veteran is settled under Section 9 or 13 of the Act, or
(b) the date of the initial disbursement when settlement is under Section 35 or 35A of the Act.

3. A veteran may receive an allowance while undergoing training if his application for training is approved by the D.V.A. District Training Board. (Section 7 of V.R. Act and Section 10 of V.R. Regulations).

Pre-establishment Training

4. The time limit for application for pre-establishment training is the same as for other vocational training which, in general, is twelve months from date of discharge. (Section 7(2) of V.R. Act and Section 2 of V.R. Order). Under circumstances described in Para. 17 of the V.R. Regulations, pensioners may apply without limitation as to date of application.

5. (1) If, at the time of application for qualification, a veteran is lacking in satisfactory farming experience, but it is apparent to the Regional Advisory Committee that his ultimate rehabilitation will be in full-time farming, he should be assisted in obtaining training-on-the-job with a suitable farmer. Normally, training allowance is unnecessary as the wage received is sufficient to meet the veteran's immediate requirements, and inadvisable as the veteran should conserve his entitlement to allowances until after establishment when it may be necessary for awaiting returns allowance or training allowance while taking short courses. However, if the wage paid by the employer-trainer is fair and reasonable, but still inadequate to meet the needs of the trainee and his dependents, the veteran should be assisted in making application for training allowance.

(2) The selection of suitable farmers under whom veterans will gain the required experience and training rests with the Regional Supervisor who shall ensure not only that the farmers are competent to provide the required training, but also that the wage is fair and reasonable, particularly if training allowance is recommended.

A copy of Orillia 31 D/N.W. is enclosed showing location of items referred.

You will note that most of these place names identify summer cottage resorts with quite a population in summer but practically deserted in winter. In recent years it has become the practice of the owners of farm properties flanking the shores of L.Simcoe, L. Couchiching and many other such waters, to subdivide the shore lands, and to erect cottages for rental, lease or sale, or to sell off individual lots to people who wish to build their own cottage.

The rapid increase in the number of summer colonies along the easterly shores of L.Simcoe and L. Couchiching during recent years is due to the fact that this area has become very popular with Jewish summer residents, most of whom have permanent homes in Toronto.

A considerable number of these resort names are evident in the Ontario Motor League Road Book and are also appearing on road maps distributed by commercial oil companies.

I trust that the above information will be of assistance to the evaluation of names which are to appear on this new map.

Yours very truly,

F.W.Beatty,

Termination of Tenancy at Will

7. (1) A veteran holding or occupying land sold by the Director shall, until the Director grants or conveys the land to him, be deemed to be a tenant at will (section 10 of the Act), and if he abandons his property, or the circumstances are such that the Director's security is jeopardized by his actions, the Director may terminate his tenancy at will. By this action, the Director takes possession of the land and, if necessary, the crops.

(2) When the District Superintendent decides to terminate tenancy at will, he shall issue Notice to Determine Tenancy at Will, modelled along the lines of Appendix "A", confirmed by Affidavit of Service, Form VLA 327B, if personally served, or by Form VLA 327 if served by registered mail. If possession of land only is to be taken, Letter of Dispossession, Appendix "B", or if land and crops are to be taken, Appendix "C", shall accompany the Notice.

(3) Concurrently with action under subsection (2), the Field Supervisor as bailiff for the Director shall take possession and, if necessary, appoint a sub-bailiff, by use of Appendix "D", Appointment of Sub-bailiff, who shall acknowledge the appointment by completing Appendix "E", Agreement to Act as Sub-bailiff.

(4) The Field Supervisor shall post Notice of Possession, Form VLA 314, on the buildings, and in particular on any storage places in which crops grown on the land are held.

(5) Possession should not be taken of the crops except where it is the intention of the District Superintendent to follow through with the disposal of the crops. The marketing of crops should be arranged, if practicable, with the veteran. In those cases where the veteran is not available or is unwilling to co-operate as to the disposal of the crops, the District Superintendent should seek and act on the advice of the District Solicitor.

(6) If the defaults are remedied, the account shall be reinstated by use of Special Action Notice.

Mortgage or Civilian Agreements

8. Distraining action under the Attornment Clause in a Mortgage Agreement or under a civilian Agreement for Sale, Form VLA 245, may be initiated under the law of the province by the District Superintendent. The proceedings should be instituted under the supervision of the District Solicitor and shall be reported to Head Office by Special Action Notice, together with evidence supporting such action.

Dear Mr. Munroe,

I wish to refer to your letter of the 17th February, file 3662, in which you mentioned that the Longford Mills, Ont., Post Office, is located in the settlement of Longford and that the Station name agrees with the name of the settlement.

In this connection, permit me to inform you that the patrons of the office who were contacted, wished to retain the present name of the Post Office "Longford Mills".

The managers of the Chemical Plants on the area were also in favour of retaining the present name of the office.

Re: Orillia 31 D/11 Ontario

We have written to the Canadian Pacific Railway Company on Mr. Beatty's suggestion that their station name be changed to New Uhthoff to agree with local usage for the settlement at this point.

The Canadian Pacific Railways has advised that as far as operations are concerned, they prefer to use a single name and where possible keep the name as short as possible.

We have amended our records accordingly.

Mr. G.E. Mayne,

Canadian Pacific Railway Company,
Toronto, Ontario.

Dear Mr. Mayne:

Your letter dated 22 March 1954, your file 21344, regarding the proposal to change your station name Uhthoff to New Uhthoff is acknowledged.

I regret that the spelling Uhtoff was taken from correspondence on our file and is incorrect. Our letter should have read Uhthoff in all instances where this name was used.

According to information received the settlement and station on the Canadian National Railway is locally called Uhthoff and the settlement at the Canadian Pacific Railway station of Uhthoff, some one mile from the above place, is locally known as New Uhthoff.

Our request was made in an effort to bring your station name into agreement with the local name for the settlement, New Uhthoff.

However, since there is no confusion in the present naming and as your principle is to keep station names as concise as possible, we shall take no further action.

You will appreciate that many of these doublt names for a single place come to our attention as the names for new maps are being checked and our purpose in writing is primarily to draw the difference to the attention of the authorities concerned in the event that they may wish to alter their name in the interests of uniformity.

We do appreciate the interest taken in these requests and the cooperation received from the railway companies in many instances as the result of information sent forward.

Yours very truly,

G.M. Munroe,
Secretary.

Dear Sir:

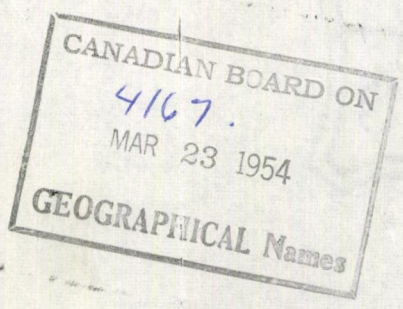

This will acknowledge receipt of your letter of the 16th ultimo, file 3662, addressed to my predecessor, concerning suggestion that the name of our station at "UHTHOFF" be changed to "NEW UHTOFF".

At the outset, I should like to point out that the correct spelling of our station name is "UHTHOFF" and not "UHTOFF" as mentioned in your letter. Insofar as the changing of the name to "NEW UHTOFF" is concerned, as far as our operations are concerned, we prefer to use a single name and, where possible, keep this as short as we can. In this case, while we are not particularly anxious to lengthen the name, we would be prepared to give consideration to shortening the name to "UHTOFF" if you consider that this might help the situation.

Will you kindly let me hear from you at your convenience.

Yours truly,

MEMO: Mr. Munroe, DATE: Feb. 26, 1954.

SUBJECT: Orillia 31 D/11

With reference to your memorandum of Feb. 16, file 3662, would you kindly refer the print marked by Mr. Beatty to Mr. Dixon, Topographic Survey, so that he may secure the highway information. Mr. Dixon could also check the Indian reserve questioned by Mr. Beatty.

Regarding the names noted by Mr. Beatty, no. 42 Dartmoor was detected and corrected for drafting purposes shortly after dispatch of the list.

49. Couchiching Beach Park - as this is not a settlement, we will delete the name.

117. Cran or Cranberry L - As Cranberry L. is the locally used name, do not feel that deletion is a satisfactory solution.

138. Sucker Creek - same comment.

New Names

Log Canal - would regard as descriptive only.

All other suggestions by Mr. Beatty appear to be satisfactory.

Print returned herewith.

Dear Mr. MacNabb:

The names for the new Orillia 31 D/11 Ontario map are presently before the Board for consideration.

According to our records the post office name at the settlement of Longford is Longford Mills. The station name agrees with the settlement name Longford.

It is noted that Longford, nor Langford is duplicated for a post office in Canada according to the Postal Guide.

This difference is noted for your information and any comment you care to make.

Re: Orillia 31 D/11 Ontario

The name sheet and name list for the above mentioned map is acknowledged.

Please find enclosed copy of the recommendations and comments of the Provincial Representative. Also included is a copy of the map sheet showing new locations of names and highways.

42. Dartmoor

It is noted that this name was listed as Dartmoore. This name was adopted for the 2 mile map as Dartmoor.

New Names

Your comments and recommendations are requested for the new names as endorsed by the Provincial Representative.

We have written the C.P.R. regarding the proposal to to change to New Uhtoff.

May the copy of the map sheet be returned when all the information has been transferred.

Mr. G.N. Curley,
General Manager,
Eastern Region,

Winnipeg, Manitoba.

Dear Mr. Curley:

It is noted in the information received on the names for the new Orillia 31 D/11 Ontario map that the settlement at the station named Uhtoff on the C.P.R. is locally known as New Uhtoff.

Mr. F. W. Beatty, Board Member for Ontario, has suggested that the above station name be changed to New Uhtoff to agree with local usage.

According to our records the C.P.R. Station, approximately one mile from the above location, and the surrounding settlement are both known by the name Uhtoff.

Your comments and recommendations on Mr. Beatty's suggestion will be very much appreciated.

Yours very truly,

Mr.L.B.Skinner,

Dear Mr. Skinner:- Re:Orillia 31 D/11 Ontario

I am returning, with this letter, one name list and map copy for the above.

The checking of the nomemclature has been considerably delayed by priority of other work and also by the tardiness of persons to return to us information relative to our enquiries re the existence and status of a number of so called settlements, etc.

Items on the list are to be considered satisfactory unless otherwise marked and if and when further information comes to hand re enquiries made it will be forwarded to you.

Comments are numbered as per your list:

20 Orillia - This place is an incorporated town, not a city as per list.

21,22,23 & 24 These places are not incorporated villages, therefore they are to be considered as hamlets, municipally controlled by the townships of which they are a part.

28 Uhtoff - This is the name recognized by both C.N.R. & C.P.R. for stations on their lines. It may be advisable to show "New Uhtoff" as a settlement in close proximity to the C.P.R. station, unless the C.P.R. officials consent to changing the name of their station to suit local usage.

Write Re

42 Dartmoore As shown on both list and map copy, with Ref. No 5 as the authority. Said map 31 D/N.W. shows Dartmoor - which is correct?.

49 Couchiching Beach Park -	This name does not refer to a settlement but to the public recreation park used by residents & visitors to the Town of Orillia.
68 Dalrymple	Would advise deletion of the name "Lake Dalrymple" as shown on Map 31 D/N.W. thereby allowing the name Dalrymple to identify the entire locality situated along the lakeshore.
70a East Oro	Incorrectly added on map list as East Ora.
77 Glenrest Beach	This is the newly authorized post office name for the resort - see C.B.G.N. report dated Oct.1st,1953,although not yet published in Postal Guide supplements.
85 Eldon Station	Satisfactory to use the full post office name as indicating the station also.
86 Portage Road	Deletion of this name as suggested is satisfactor
110 Graves bay	Does your field information indicate this name to be possessive? if so the "S" should be deleted.
117 Cran lake	This change was instituted for use on map 31 D/ N.W. because of the close proximity of another Cranberry L. in Dalton Tp. on the same sheet. If this is not satisfactory to the present Board it would seem advisable to delete the name entirely rather than revert to the original name which is objectionably common.
137 Deverells creek	If field information indicates this as a possessive form the "S" should be deleted, otherwise satisfactory.
138 Sucker creek	Very common name for a small feature. Unless special reasons exist for maintaining it as such it should be changed or deleted, an alternative would be "Mara" creek after the township through which it drains.
154 Rattlesnake island	Consider it wise to maintain this name,thereby preventing confliction with "Snake I". in L.Simcoe which is already a Board decision- see Beaverton sheet 31 D/6.

ONTARIO

DEPARTMENT OF LANDS AND FORESTS

168 Goat island	No objection to reverting to this name if Board prefers it. The name "Bird", as passed for former editions of 31 D/N.W., was selected re its appearance on the Trent Canal System sheet no.14 dated 1934.
172 Horseshoe island	No objection to this name, appearance of Horse I. for this feature previously is due to it being shown on the Trent Canal System sheet no. 14.
210 Indian Reserve No 33	- It is noted that the "Schedule of Indian Reserves" shows Chiefs I. and others in Lake Couchiching to be part of this Reserve, your map copy and list does not show them as such. Suggest checking with Indian Affairs as to the exact islands in this category.
Highways - a	Location of Highway No 69 is changed. - see map copy for new location, road from Atherley to Washago formerly designated as such has reverted to the status of a County Road.
b	The extension of the controlled access highway, north of Toronto, from Barrie to Washago and tentatively known as the "Orillia Bypass" is not shown on your map copy, It is being constructed as a 3 lane highway and should appear on this map.
Butternut creek	This name applies to a small stream entering the Trent Canal near Bolsover P.O. see section F 1., on map, as shown on map of Victoria County pub. by the Times Publishing Co. Peterborough, Ont. in 1910.
Log canal	Is this merely a descriptive term used to denote the waterway from L. St. John to the Black River? or should it be classed as a definite name.?
The Narrows	This name, originally shown on an Admiralty chart dated 1828, is, according to tourist literature, still well known locally as identifying the waters connecting L. Couchiching with L. Simcoe. Suggest that it be incorporated in the map detail.
Barnstable bay and) St. Ives bay)	These two names appear on the Admiralty chart dated 1828, but have not appeared on maps since that time according to our records.

It is a question whether the use of these old names should be revived. The waters so designated have no other apparent name.
Barnstable bay applies to the bay of L.Simcoe lying between Molley Pt. and McGinnis Pt. in C1.
St. Ives bay applies to the rather broad indention of the L. Simcoe shore line south of Schepeler in C1 & D1.

Floral point — Names appears in listing of tourist accommodations 1953 and apparently applies to the point of land on east shore of L. Couchiching north of Floral Park in B3.

Old Brewery bay — Referred to in publicity literature as being part of L. Couchiching near the former summer home of the late Stephen Leacock well known Canadian writer. Have not been able to locate this feature exactly. Does the field detail contain any information re this name? Local enquiry has been made but no answer received yet.

It is to be hoped that the late return of this information to you has not delayed too greatly the progress on this map.

LIST OF CONTENTIOUS NAMES

Orillia, Ontario — Sheet No. 31 D/11

Card No.	Name	Remarks
39.	Bluffs Creek (Grouse Creek)	Local use Maps Well known locally as Bluff's Creek. Shown on maps as Grouse Creek.
40.	Cranberry Lake (Cran Lake)	Early maps and local use Recent maps. Shown on early maps as Cranberry Creek; Changed to Cran Lake on recent maps but change not accepted locally.
	Carden	Unknown locally. Shown as a small farming district at crossroads on maps. No existing dwellings or inhabitants in area. The name 'Carden' as used locally applies to the township only.
41.	Dalrymple (Lake Dalrymple)	Community Shown on recent maps as two communities - Dalrymple and Lake Dalrymple. This is actually one community extending along the eastern shore of Dalrymple Lake and the name Dalrymple, as used locally, refers to the entire community.
	Fawkham	Unknown locally. Shown on maps as small farming community. Name fallen into disuse locally - no existing substitute.
42.	Goat Island (Bird Island)	Early maps and local use. Recent maps. Shown on early maps as Goat Island. Changed to Bird Island on recent maps, but change not accepted locally.
	Goffat Island (Whitney Island)	Recent Maps Early maps. Confirmation for either name was not obtained locally. Few residents refer to any of the islands by name.
43.	Happ-i-land (Happyland)	Local use Maps. Misspelled on existing maps according to local use
	Ellesmere Talbot	Both of these names apply to previous railway stops on what is now an abandoned railway. They have no use locally and it is recommended that they be omitted in future publications.
	* Silver Creek	Formerly a railway stop, presently the centre of a reforestation area. Name fallen into disuse locally.
	* Shields Tafton Carthew	Shown on existing maps as railway stops or sidings No confirmation could be obtained locally. Could possibly be confirmed through Railway Guide.
	Nadie Island	Shown on previous maps, no confirmation could be obtained locally.

Card No.	Names	Remarks
44.	Horseshoe Island (Horse Island)	(Local Usage) (Early maps) Recent Maps Shown on early maps as Horseshoe Island, changed to Horse Island on recent maps but change not accepted locally.
45.	New Uhthoff (Uhthoff)	Local use Maps. Two settlements in the area are shown on maps as both having the same name of "Uhthoff". Confusion is avoided locally by referring to the newer settlement as New Uhthoff.

BOARD

Toronto, August 24th, 1922.

R. Douglas Esq.,
Secy. Geographic Board of Canada,
Ottawa, Ont.

Dear Sir;-

I am in receipt of your letter of the 23rd inst. advising me that the Municipality of the Township Council of Carden desire to have the name of the lake within that township changed from Mud Lake to Dalrymple Lake.

This proposed change is quite agreeable to me. I am very glad to get some of the Mud Lakes in our Province changed to some other designation.

Yours truly,

A. P. Rose
Director of Surveys

Ottawa, 23rd August, 1922.

John Walsh, Esq.,
Clerk of Carden,
Kirkfield P. O.,
R.R.3, Victoria County, Ont.

Sir,

I beg to acknowledge receipt of your communication of the 21st, forwarding a resolution of the municipal council of the township of Carden recommending that the name Mud Lake be changed to Dalrymple Lake. The matter will be discussed at the Board meeting of 5th September.

Your obedient servant,

R. DOUGLAS

Secretary.

Ottawa, 23rd August, 1922.

L. V. Rorke, Esq.,

P.S. Please let me know at your earliest convenience if you will grant our request,

NOTE.—Before filling in this form, see rules of nomenclature on back.

RULES

To be observed in submitting names to the Geographic Board.

Names submitted to the Geographic Board should be accompanied by a map showing the position of the features for which the names are proposed.

If the features already bear names which appear on any published map, a reference to this map suffices.

Names received by the Board for consideration are referred to the member of the Board representing the Province concerned, after which they go to the Executive Committee of the Board. It is desirable, therefore, that lists and maps should be submitted in duplicate, where this can be done conveniently.

The memorandum submitted should state whether the suggested names are new, or have been published, and whether the features they apply to are unnamed, or possess names. If a suggested name is new, full particulars respecting the origin must be given. If a suggested name has already been published, the date of publication as well as the circumstances of the origin, if known, should be given.

If a proposed name is intended to replace a published or existing one, this name should be given, with the place and date of publication, if known, as well as the arguments for the proposed change.

Blank forms for lists of names are furnished by the Secretary on application.

The rules adopted by the Board for dealing with names are as follows:—

1. **Local use to have preference.**—Unless good and sufficient reasons to the contrary exist, that name which is in common local use shall be given preference over alternative names.

2. **Priority to be recognized.**—When the priority of a name has been established by publication, particularly when such publication has occurred in any standard or authoritative work or works, that name should, if possible, be retained.

3. **Names corrupted or changed.**—A name which has been corrupted or changed should, if not too firmly established by usage be restored to its original form.

4. **Various spellings. When to be accepted.**—In cases where what was originally the same word appears with various spellings, sanctioned by local usage or otherwise, the various spellings when applied to different features should be regarded as in effect different names and as a rule it is inadvisable to attempt to produce uniformity.

5. **Choice between two or more names.**—Where a choice is offered between two or more names for the same place or feature, all sanctioned by local usage, that which is most appropriate and euphonious should be adopted.

6. **English possessive form.**—In English nomenclature, the possessive form should be avoided whenever it can be done without destroying the euphony of the name or changing its descriptive application. Where the possessive form is retained, the apostrophe should be dropped.

7. **Names consisting of several words.**—Names consisting of more than one word may be connected by hyphens or combined in one word, as may be advisable.

8. **City, town or ville as part of names.**—The use of the words "city," "town," or "ville," as part of the name of a city, town or village, is to be avoided.

9. **Canyon, Cañon or Gorge.**—"Canyon" may be used instead of "cañon," but the form "canon" without the tilda sign must not be used. The word "gorge," which has the advantage of being both English and French, may often be substituted.

10. **Creek and Brook.**—The term "brook" is considered preferable to "creek" for very small streams.

11. **Branches of rivers.**—The practice of naming branches of rivers "South branch," "North branch," "East fork," etc., is objectionable. Each branch should be given an individual name, and when practicable, the name of the main stream should be continued to the most distant source.

12. **Duplication of names.**—Duplication of names, especially within one province, is objectionable. This excludes such common descriptive names as Bear, Deer, Duck, Eagle, Fish, Maple, Moose, Pigeon, Pine, Sturgeon, Trout, Turtle, Wolf, Wood, Black, Clear, Green, Red, White, Mud, etc. Duplication also renders undesirable a number of descriptive names which are less common, such as many of the names applied to mountain peaks.

13. **Alternative names.**—The use of alternative names should be discontinued where possible or not inconvenient.

14. **Initial letters. When not to be capitals.**—Except on maps, the initial letters of generic or descriptive parts of geographical names, should not be capitals.

15. **French names in Canada.**—French names in Canada are to be spelled, accented, hyphenated, etc., according to the rules of the French language. In English text and map printing, however, hyphenation although recommended for French composite names, shall not be considered obligatory.

16. **English and French forms of a name.**—In cases where English and French forms of a single name have been published and have the sanction of long usage, no attempt shall be be made to abolish either form, but both may be recognized and published in the Board's list of decisions, and it shall be deemed correct to use the English form in official documents in the English language and the French form in official documents in the French language. In all other cases, any duplication of form shall be discouraged and preference shall be given to the form which has priority of origin whether this be English or French.

17. **Descriptive terms—when to be translated.**—A generic descriptive term, such as cape, bay, river, etc., added to a name, may be translated into French for use in French publications. Likewise, the corresponding French term may be translated into English for use in English publications, but when such term is part of the name as in "Murray Bay," "and Deux-Rivières," it shall not be translated.

18. **Objectionable Combination of words.**—As a general rule, the combination of words in different languages is objectionable.

19. **Names in foreign Countries.**—Geographic names in a foreign country should be rendered in the form adopted by that country, except where there are English or French equivalents already fixed by usage, in which case the English equivalents are to be used in English publications, and the French equivalents in French publications.

20. **Hyphens in Indian names.**—Hyphens between syllables of Indian names are to be avoided.

21. **Names of native origin.**—In a name of native origin the true sound of the word, as pronounced in the native tongue shall be taken as the basis of the spelling.

22. **Rules of the Royal Geographical Society.**—For spelling names of native origin, the rules of the Royal Geographical Society, which are substantially in accord with official practice in France, shall be adhered to. Their broad features are as follows:—

(a) The vowels are pronounced as in Italian, and the consonants as in English.

(b) Every letter is pronounced, and no redundant letters are introduced. When two vowels come together, each one is sounded, though the result, when spoken quickly, is sometimes scarcely to be distinguished from a single sound, as in ai, au, ei.

The following amplification of the foregoing rules is given by the Royal Geographical Society to explain their application.

Letters.	Pronunciation and Remarks.	Examples.
a	*ah*, *a* as in *father*	Java, Banana, Somali, Bari.
e	*eh*, *a* as in *fate*	Tel el Kebir, Oleleh, Yezo, Medina, Levuka, Peru.
i	English *e*; *i* as in *ravine*; the sound of *ee* in *beet*.....Thus, not *Feejee*, but	Fiji, Hindi.
o	*o* as in *mote*	Tokyo.
u	long *u* as in *flute*; the sound of *oo* in *boot*. *oo* or *ou* should never be employed for this sound. Thus, not *Zooloo*, but	Zulu, Sumatra.
	All vowels are shortened in sound by doubling the following consonant	Yarra, Tanna, Mecca, Jidda.
	Doubling a vowel is only necessary when there is a distinct repetition of the single sound.	Nuulua, Oosima.
ai	as in *aisle*, or English *i* as in *ice*	Shanghai.
au	*ow* as in *how*.....Thus, not *Foochow*, but	Fuchau.
ao	is slightly different from above	Macao.
aw	when followed by a consonant or at the end of a word, as in *law*	Cawnpore.
ei	is the sound of the two Italian vowels, but is frequently slurred over, when it is scarcely to be distinguished from *ei* in the English *eight* or *ey* in the English *they*	Beirut, Beilul.
b	English *b*	
c	is always soft, but is so nearly the sound of *s* that it should be seldom used. If *Celebes* were not already recognized it would be written *Selebes*.	Celebes.
ch	is always soft as in *church*	Chingchin.
d	English *d*.	
f	English *f*. *ph* should not be used for the sound of *f*.....Thus, not *Haiphong*, but	Haifong, Nafa.
g	is always hard. (Soft *g* is given by *j*)	Galapagos.
h	is always pronounced when inserted.	
hw	as in *what*; better rendered by *hw* than by *wh*, or *h* followed by a vowel, thus *Hwang ho*, not *Whang ho*, or *Hoang ho*	Hwang ho, Ngan hwei.
j	English *j*. *Dj* should never be put for this sound	Japan, Jinchuen.
k	English *k*. It should always be put for the hard *c*.....Thus, not *Corea*, but	Korea.
kh	The Oriental guttural	Khan.
gh	is another guttural, as in the Turkish	Dagh, Ghazi.
l, m, n	As in English.	
ng	has two separate sounds, the one hard as in the English word *finger*, the other as in *singer*. As these two sounds are rarely employed in the same locality, no attempt is made to distinguish between them.	
p	As in English.	
ph	As in *loophole*	Chemulpho, Mokpho.
th	stands both for its sound in *thing*, and as in *this*. The former is most common.	Bethlehem.
q	should never be employed; *qu* (in *quiver*) is given as *kw*	Kwangtung.
r, s, sh, t, v, w, x	As in English.	Sawakin.
y	is always a consonant, as in *yard*, and therefore should never be used as a terminal, *i* or *e* being substituted as the sound may require	Kikuyu.
	Thus, not *Mikindany*, but	Mikindani.
	not *Kwaly*, but	Kwale.
z	English *z*	Zulu.
zh	The French *j*, or as *s* in *treasure*	Muzhdaha.
