RELEASE NOTE **2**

OVERVIEW

CanVec is a digital cartographical reference product produced by Natural Resources Canada. It originates from the best available data sources covering the Canadian territory. This product offers quality topographical information in vector format in compliance with international geomatics standards.

This new CanVec is the result of an improved data model whose goal to provide of providing seamless data layer coverage across Canada. Currently, only Atlas data and the Transportation theme data sourced from the National Road Network (NRN) and the National Railway Network (NRWN) are available seamlessly. Future releases will include additional seamless data layers.

Note: Since October 2015, the Aboriginal Lands data have not been supported in the CanVec product. Please download the [GeoBase - Aboriginal Lands of Canada](#) to obtain updated information.

RELEASE DATE

March 17, 2016

RELEASE NOTE

The CanVec product includes the following improvements and modifications (datasets listed below are in reference to the National Topographic System (NTS) at the scale of 1:50 000):

- Update of metric Hypsographic Data (for datasets whose the unit of measurement of contour was the imperial system): 1,055 datasets including:
 - 174 in British Columbia
 - 239 in Alberta
 - 46 in Saskatchewan
 - 68 in Manitoba
 - 34 in Ontario
 - 308 in Quebec
 - 143 in Newfoundland and Labrador
 - 124 in Yukon
 - 155 in Northwest Territories
 - 42 in Nunavut
- Update of National Railway Network (NRWN) data in Manitoba.
- Update of National Road Network (NRN) data in Prince Edward Island and Nova Scotia.
- Update of Wooded area entities in Quebec for 112 datasets (integration with Hydrography theme entities).
- Correction of discrepancies for datasets and metadata in the CanVec product:
 - Error of structuration of some entity occurrences **Waterbody**:
 - 1 dataset, discrepancy no 03305
 - 2 datasets, discrepancy no 03299
 - Error of structuration of some entity occurrences **Contour**:
 - 12 datasets, discrepancy no 03306
 - 1 dataset, discrepancy no 03307
 - 12 datasets, discrepancy no 03308
 - Error of structuration of some entity occurrences **Waterbody** and **Contour**, (2 datasets, discrepancy No. 03299);
 - Error of structuration of some entity occurrences **Hydrography** theme, (2 datasets, discrepancy No. 03301);

- Error of structuration of some entity occurrences **Hydrography** theme and other entities, (2 datasets, discrepancy No. 03309);
- Commission of an occurrence entity **Named Feature** – 100 Mile House, (1 dataset, discrepancy No. 03310);
- Omission of some occurrence entities **Island**, (1 dataset, discrepancy No. 03316);
- Error of elevation value for an entity occurrence **Contour**, (1 dataset, discrepancy No. 03320).

Note: Some discrepancies between the attribute names in the catalogue and in the CanVec product have been found. The following table shows them and there could be few others. We are working to correct the situation.

Scale	Theme	Feature name	Attribute name in the catalogue	Attribute name in CanVec
50K	Admin	municipal_boundary_2	name_legal_other_language	Missing
	ManMade	landmark_feature_0	landmark_structure_descr	landmark_feature_descr
		landmark_feature_1	landmark_structure_descr	landmark_feature_descr
	Hydro	water_linear_flow_1 watercourse_1 waterbody_2	name_other_language	language_other
	Land	island_2	name_other_language	language_other
	Transport	road_junction_0 road_ferry_1 toll_point_0	acquisition_technique (en/fr) provider(en/fr) road_descriptor acquisition_technique (en/fr) provider(en/fr)	Missing
		road_segment_1	acquisition_technique (en/fr),provider(en/fr)	Missing
All layers track		md_id_attr et md_id_geom	md_id	
250K	ManMade	dam_* protection_structure_*	country (en/fr) map_selection (en/fr)	Missing
	Hydro	hydro_obstacle_*	country (en/fr) map_selection (en/fr)	Missing
		watercourse_1	name_other_language	Missing
